The trading strategies of legends Jesse Livermore, Bernard Baruch, Gerald Loeb, and more provide ways to triumph in the market Today's bookshelves are so laden with Johnny-come-lately experts, eager to sell their knowledge to any and all, that it's sometimes hard for traders to know which way to turn or whom to trust. Lessons from the Greatest Stock Traders of All Time makes the choice simple, examining the careers of five traders--Jesse Livermore, Bernard Baruch, Gerald Loeb, Nicolas Darvas, and Bill O'Neil--who, more than any others over the past century, demonstrated tremendous success at conquering Wall Street. This technique-filled book presents numerous ways in which the timeless strategies of these investing icons can be used to tame today's high-speed, unforgiving marketplaces. Comparing and contrasting the successes--and occasional failures--of these five giants of finance, it reveals: What Jesse Livermore did to correctly call every market break between 1917 and 1940 How Bill O'Neil stuck to basics to create his famously effective CANSLIM system The strategies Nicolas Darvas used to become a self-made millionaire several times over

"We're going to raise traders just like they raise turtles in Singapore." So trading guru Richard Dennis reportedly said to his long-time friend William Eckhardt nearly 25 years ago. What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. Way of the Turtle reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the "Turtles." Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Only nineteen years old at the time--the youngest Turtle by far--Faith traded the largest account, making more than \$30 million in just over four years. He takes you behind the scenes of the Turtle selection process and behind closed doors where the Turtles learned the lucrative trading strategies that enabled them to earn an average return of over 80 percent per year and profits of more than \$100 million. You'll discover How the Turtles made money--the principles that guided their trading and the step-by-step methods they followed Why, even though they used the same approach, some Turtles were more successful than others How to look beyond the rules as the Turtles implemented them to find core strategies that work for any tradable market How to apply the Turtle Way to your own trades--and in your own life Ways to diversify your trading and limit your exposure to risk Offering his unique perspective on the experience, Faith explains why the Turtle Way works in modern markets, and shares hard-earned wisdom on taking risks, choosing your own path, and learning from your mistakes.

In praise of Charlie D. "Falloon's eloquent explication of the life of the legendary Charlie D delivers a good read while exposing that most under-publicized commodity of them all-a mega-trader with a low public profile whose superhuman trading abilities were exceeded by only one thing-the extended reach of his heart and soul." -Patrick H. Arbor Chairman, Chicago Board of Trade "Charlie D. is a tribute to the entrepreneurial spirit of Charlie D, whose legend still lives today on our trading floors. It also captures the essence of the men and women of Chicago who, working in a unique environment, through their trading provide economic benefits around the world." -Thomas R. Donovan President and Chief Executive Officer Chicago Board of Trade "Charlie D was unique-a poker-faced, unemotional, swashbuckling trader every other trader seeks to emulate. At the same time, he was also a model of trading integrity and one of the most generous people I have ever known. Whether trading or gambling, vacationing with family or go lling with superstars, he did everything with a special flair and spirit. Charlie was truly larger than life." -Thomas DeMark Author of The New Science of Technical Analysis and New Market Timing Techniques "Falloon captures the essence of the Charlie D I knew and rekindles my memories of a larger-than-life individual-how he laughed in the face of cancer, his generosity, and his sense of humor." -Mike Manning Rand Financial Services, Inc. "Charlie D was the most dynamic trader I've ever seen in my nineteen years in this business, and, beyond that, the best human being I've known." -Tom Fitzgerald TPF Trading

Praise for CHRONICLES of a MILLION DOLLAR TRADER "Focus, tenacity, self-analysis, and intensity. Don Miller conveys the essence of trading in such a compelling and down-to-earth manner—the reader literally eats, sleeps, and breathes Don's moments of triumph and exhaustion. Don clearly nails the most pertinent points in this business: add to your position when you have a strong hand, fight to dig yourself out of the inevitable abyss, and don't trade when you are tired. This book is what professional trading is TRULY about!" —Linda Raschke, President, LBRGroup, Inc. "My career as a broker with some of the largest futures brokerages in the world has put me in a unique position to evaluate traders. I've been able to observe many of the best futures traders in the industry over the past twenty years. And what I can state with certainty is that Don Miller is one of, if not the, best futures traders I've seen. Great traders are able to recognize and adapt to changing market environments. They take their mistakes and use them to become better traders. Great traders possess the unique discipline to manage a losing trade as well as a winning one. These are the qualities I have witnessed Don Miller master. The fact that Don has agreed to share his experiences and insights makes this book an invaluable doctrine to all traders and investors alike." —Patrick Lafferty, President, Capital Trading Group "I've had the good fortune of watching Don Miller trade profitably in front a live group of full-time traders over a two-day period of time. The methods Don teaches are solid, and more importantly, as you will see here in his book, they've been consistently successful. This book goes further than most trading books because you get to live with Don day by day, seeing both his actual trading along with his mind frame. If you want to learn from someone who has mastered day trading, and has successfully done so for years, then this book is must reading. Highly recommended!" —Larry Connors, founder, TradingMarkets.com; author of How Markets Really Work "I have personally seen Don trade for several years, and he is candidly one of the best. His book is enlightening and helpful in understanding the mindset of a successful trader." —Steve Demarest, President, MB Trading "A true story of sacrifice, hardship, and success. Don Miller shares his story to make \$1 million in one year in real time, real trading records, and real life." —James L. Koutoulas, Esq., CEO, Typhon

I love the structure of this book: Steve Burns points out huge differences between winners and losers in every area of the market. Each chapter takes up a pair of opposites, such as "New Traders try to prove they are right; Rich traders admit when they are wrong." Dozens of such pairs offer a psychological mirror to serious readers. -Alexander Elder www.elder.com Here is a work that puts the reader in the mind of a fledging trader who makes all the mistakes then learns from them. Told in an instructive and entertaining narrative, the author takes the reader through the trading concepts with a clarity and ease of understanding. A must read for beginning and intermediate level traders. -Dr. Chris Kacher, co-founder of www.SelfishInvesting.com and co-author of "How We Made 18,000% in the Stock Market" You have done a truly tremendous job with this book A breezy read with essential trading advice. I think this book could become a trading classic So many great rules are offered in this book, but I think my favorite might be Chapter 8's. It is SO true Just printing out the title of each chapter and putting it on your desk would greatly benefit every trader I know. Steve, you've done a great job -"Darrin Donnelly, DarvasTrader.com." Steve Burns has done a superb job with his new book "New Trader, Rich Trader" This is a must read for all levels of traders. Golden nuggets include important concepts like "I always put capital preservation before capital appreciation." Steve tackles psychology, risk control, and what it takes to succeed in this business where so many fail. As Steve says "most new traders learn the hard way by losing money...." don't be one of them, do yourself a favor and buy this book, because not only is it a great investment, but the concepts in this book will save you plenty -Bennett McDowell, Founder, TradersCoach.com(r) Author: "A Trader's Money Management System: How to Ensure Profit and Avoid the Risk of Ruin" Steve Burnsdescribes three of the most critical aspects of trading with a "dialogue-style' book between a novice trader and an experienced successful trader.
