How to Build a Model (with Pictures) - wikiHow

Before building a 3D model on your computer, it helps to draw it on paper first.

Use graph paper and draw your object from the front and side (and possibly top and back, if necessary).

Make sure you draw all features in the same location in all versions of a model.

1. Punch a hole in the bottom portion of your bottle with scissors. Use a utility knife to make a small incision, no bigger than 1 inch (2.5 cm) in the side of your plastic bottle, 4–5 inches (10–13 cm) above the bottom. The incision should be horizontal— in other words, perpendicular to the bottle's length.
