This text examines the politics of culture and the culture of politics in Pacific Asia through case studies on the South Pacific, China, South Korea, Thailand and Southeast Asia. The contexts and cultures of the chapters are wide-ranging and Callahan skilfully ties them together with the objective of analyzing the relation between the state's cultural governance and resistance to it. The themes covered include: governmentality and cultural production popular culture and resistance East/West relations gender, identity and democracy civil society, social movements and democracy national and transnational identity production. Cultural Governance and Resistance in Pacific Asia addresses the dynamics between Asian studies and cultural studies, and the overlap between comparative politics and international relations, and as such will appeal to students and scholars of Asian studies, cultural studies, comparative politics, sociology and anthropology alike.

As Scottish Correspondent for Earthmovers Magazine, David Wylie has enjoyed privileged access to the mines, quarries, road projects and forestry sites across Scotland. On his visits he has seen some of the biggest and arguably the best, earthmoving machinery in the world, in action. Earthmovers in Scotland brings together 32 of David's reports from these visits to tell the story of the highly skilled, experienced owners, drivers and managers that work with earthmoving equipment and explains why they select, maintain and operate these machines. The book features some of the largest earthmovers in the UK, such as Caterpillar's D11R bulldozer, Liebherr's massive 320 tonne R9350s and the mighty 520 tonne Q&K RH200 at Banks Mining Shotton surface mine in Northumberland, a short hop over the Scottish border. It also takes a look at a 1.5 tonne mini digger, special trailers that can lift and transport 1800 tonne bridges into position, and covers Demag's H485 record breaking mining shovel amongst others. Taking pride of place in the book are over 400 stunning photographs, many of which have not been seen before and many of which feature machines that were the first of their kind. Each high quality photo has been carefully composed to capture each machine in all its power and brilliance with the spectacular Scottish scenery as a backdrop and 80 of the most important and detailed images are presented as double pages to help you get close to the action. This beautiful book sets out to provide its owner with a comprehensive look at Scottish earthmovers scene, and will be of interest to enthusiasts, owners, drivers and site managers worldwide.

When she was last spotted on the crossroads of Swart and Gevaar Roads, Coconut Kelz was drinking Woolies water and spreading her truth bombs about the state of the nation, why corruption is okay when white people do it and why black people dont win in life Coconut Kelz (Kelello, but call me Kelz!) is a young Caucasian woman trapped in a black womans body. Kelz lives in and tries never to leave Sandton and is a staunch member of the DA. She often takes issue with her reverse racist dad, while her mother has to remind her that Braai Day is actually called Heritage Day. With handy tips on how to achieve the white right standard of beauty, how to catch yourself a white guy (elongate your vowels, get yourself into white spaces), the best suburbs to live in and how to host the perfect Caucasian shindig, Kelz offers a complete guide for a full Caucasian conversion. She also shares her thoughts on the differences between race groups, the top three political parties, public transport, how to avoid contact with sgebengas and why one should never stray beyond the Line of Caucus. Coconut Kelzs adoration of all things white has riled up many unsuspecting viewers. Of course the real butt of the joke is the white South Africans whose prejudice and dishonesties are laid bare by this character.

At the outset of the Second World War on September 1, 1939, young Aussie diggers are rushed to assist Britain in its hour of need to the nearest European war zone in the Middle East and North Africa. My Uncle Arthur, young Arty is one of these a sapper with 6 years militia training as an army engineer. The ANZAC forces sweep through Libya, from Egypt to Benghazi, defeating superior numbers of heavily armed Italians the first Allied land victory of the war. Ill-equipped and lacking promised supplies, the ANZACs are then inappropriately redirected from North Africa to Greece to help the Greeks face the overwhelming German advance. Retreating to Crete, Arty is captured in the Battle of Crete and becomes a POW. I am motivated to visit the conflict zones of Gallipoli and to follow my uncles wartime exploits from the time of his capture in June 1941 until his third and final escape from a German work camp in Czechoslovakia in 1945. Modern day travel makes it possible to visit not only the more recent wartime scenes of Central Europe, but also to visit the sites of classical civilizations to discover the history, art and cultures of the Mediterranean. Accompanying me on my journey is Avril who was born in England and has vivid wartime memories of the conflict from her childhood.
