The I Ching, or ancient Chinese Oracle of Change, is second only to the Bible as the most widely read and interpreted book in the world. As a wisdom tradition and divinatory practice, it offers living images that nourish psyche and spirit, allowing us to participate in the ongoing process of change through which all new things come into being and take the course of their lives. This book is the product of a collaboration between Stephen Karcher, today's leading I Ching scholar, and Julie Chase-Daniel, director of In the Family Way, a non-profit organization committed to cultivating creativity and compassion during family transitions. I Ching: Mothering Change adapts the rich body of Karcher's translations to help you harmonize your inner masculine and feminine creative energies and nurture the mutual process of becoming in yourself, your family, and in the world. In response to the pressing need of our times to bring the feminine forward in our approach to change, Mothering Change opens a new window on the world's oldest divination system and offers the practical tools to use the Oracle as a guide for bringing change to life.www.motheringchange.comwww.inthefamilyway.orgOver Design by Christine CortinaArt by Stephen Karcher

The I Ching, or Book of Changes, a common source for both Confucianist and Taoist philosophy, is one of the first efforts of the human mind to place itself within the universe. It has exerted a living influence in China for 3,000 years, and interest in it has been rapidly spreading in the West.

From the author of How Should a Person Be? ("one of the most talked-about books of the year"—Time Magazine) and the New York Times Bestseller Women in Clothes comes a daring novel about whether to have children. In Motherhood, Sheila Heti asks what is gained and what is lost when a woman becomes a mother, treating the most consequential decision of early adulthood with the candor, originality, and humor that have won Heti international acclaim and made How Should A Person Be? required reading for a generation. In her late thirties, when her friends are asking when they will become mothers, the narrator of Heti's intimate and urgent novel considers whether she will do so at all. In a narrative spanning several years, casting among the influence of her peers, partner, and her duties to her forebearers, she struggles to make a wise and moral choice. After seeking guidance from philosophy, her body, mysticism, and chance, she discovers her answer much closer to home. Motherhood is a courageous, keenly felt, and starkly original novel that will surely spark lively conversations about womanhood, parenthood, and about how—and for whom—to live.

One of the greatest gifts you can give your children is a strong sense of personal values. Helping your children develop values such as honesty, self-reliance, and dependability is as important a part of their education as teaching them to read or how to cross the street safely. The values you teach your children are their best protection from the influences of peer pressure and the temptations of consumer culture. With their own values clearly defined, your children can make their own decisions -- rather than imitate their friends or the latest fashions. In Teaching Your Children Values Linda and Richard Eyre present a practical, proven, month-by-month program of games, family ctivities, and value-building exercises for kids of all ages.

• A celebration of the journey of African-American women toward a new spirituality grounded in social awareness, black American tradition, metaphysics, and heightened creativity. • Features illuminating insights from Alice Walker, Toni Cade Bambara, Lucille Clifton, Dolores Kendrick, Sonia Sanchez, Michele Gibbs, Geraldine McIntosh, Masani Alexis DeVeaux and Namonyah Soipan. • By a widely published scholar, poet, and activist who has been interviewed by the press, television, and National Public Radio's All Things Considered From the last part of the twentieth century through today, African-American women have experienced a revival of spirituality and creative force, fashioning a uniquely African-American way to connect with the divine. In Soul Talk, Akasha Gloria Hull examines this multifaceted spirituality that has both fostered personal healing and functioned as a formidable weapon against racism and social injustice. Through fascinating and heartfelt conversations with some of today's most creative and powerful women--women whose spirituality encompasses, among others, traditional Christianity, Tibetan Buddhism, Native American teachings, meditation, the I Ching, and African-derived ancestral reverence--the author explores how this new spiritual consciousness is manifested, how it affects the women who practice it, and how its effects can be carried to others. Using a unique and readable blend of interviews, storytelling, literary critique, and practical suggestions of ways readers can incorporate similar renewal into their daily lives, Soul Talk shows how personal and social change are possible through reconnection with the spirit.

Combining humor, honesty, and plainspoken advice, Momma Zen distills the doubts and frustrations of parenting into vignettes of Zen wisdom. Drawing on her experience as a first-time mother, and on her years of Zen meditation and study, Miller explores how the daily challenges of parenthood can become the most profound spiritual journey of our lives. This compelling and wise memoir follows the timeline of early motherhood from pregnancy through toddlerhood. Momma Zen takes readers on a transformative journey, charting a mother's growth beyond naive expectations and disorientation to finding fulfillment in ordinary tasks, developing greater self-awareness and acceptance-to the gradual discovery of "maternal bliss," a state of abiding happiness and ease that is available to us all. In her gentle and reassuring voice, Karen Miller convinces us that ancient and authentic spiritual lessons can be as familiar as a lullaby, as ordinary as pureed peas, and as frequent as a sleepless night. She offers encouragement for the hard days, consolation for the long haul, and the lightheartedness every new mom needs to face the crooked path of motherhood straight on.

A powerful look at the importance of a mother's presence in the first years of life **Featured in The Wall Street Journal, and seen on Good Morning America, Fox & Friends, and CBS New York** In this important and empowering book, veteran psychoanalyst Erica Komisar explains why a mother's emotional and physical presence in her child's life--especially during the first three years--gives the child a greater chance of growing up emotionally healthy, happy, secure, and resilient. In other words, when it comes to connecting with your baby or toddler, more is more. Compassionate and balanced, and focusing on the emotional health of children and moms alike, this book shows parents how to give their little ones the best chance for developing into healthy and loving adults. Based on more than two decades of clinical work, established psychoanalytic theory, and the most cutting-edge neurobiological research on caregiving, attachment, and brain development, Being There explains: • How to establish emotional connection with a newborn or young child--regardless of whether you're able to work part-time or stay home • How to ease transitions to minimize stress for your baby or toddler • How to select and train quality childcare • What's true and false about widely held beliefs like "I'm not good with babies" and "I'll make up for it when he's older" • How to recognize and combat feelings of postpartum depression or boredom • Why three months of maternity leave is not long enough--and how parents can take control of their choices to provide for their family's emotional needs in the first three years Being a new mom isn't easy. But with support, emotional awareness, and coping skills, it can be the most magical--and essential--work we'll ever do.

In this timely book Lyn Craig provides the first comprehensive account of how parents divide their time between caring for children, housework, paid work and leisure. Using large-scale quantitative time-use data , the book provides a detailed analysis of the impact of children upon adult time. This research reveals a unique picture of how parenthood affects daily life within households, and how people's (paid and unpaid) workload is affected by parenthood. By looking at how the costs and benefits of children are currently conceptualized and apportioned, Contemporary Motherhood shows what becoming a mother entails and why it is so challenging to raise children. Suggesting an explanation for why fertility rates are dramatically dropping, the book makes a significant contribution to the debate on contemporary motherhood and will interest scholars and students in sociology and social policy with an interest in the sociology of the family, gender and sexuality, and the sociology of youth.

Dear Sister, It wasn't your fault; it was never your fault. You did nothing wrong. Hold this tight to your heart: it wasn't your fault. At night when you lay there and your mind fills with images and you wonder if only, if you had . . . if you hadn't Remember: it wasn't your fault. Dear Sister highlights the lessons, memories, and vision of over forty artists, activists, mothers, writers, and students who share a common bond: they are survivors of sexual violence. Written in an epistolary format, this multi-generational, multi-ethnic collection of letters and essays is a moving journey into the hearts and minds of the survivors of rape, incest, and other forms of sexual violence, written directly to and for other survivors. Dear Sister goes far beyond traditional books about healing, which often use "experts" to explain the experience of survivors for the rest of the world. Where other books about rape weave the voices of feminists and activists together and imagine what a world without violence might look like, Dear Sister describes the reality of what the world looks like through the eyes of a survivor. From a professor in the Midwest to a poet in Belgium, an escapee from a child prostitution ring, a survivor advocate in the Congo, and a sex worker in San Francisco, Dear Sister touches on issues of feminism, love, disability, gender, justice, identity, and spirituality. Lisa Factora-Borchers is a Filipina writer and editor whose work has been published in *make/shift*, *Blotch*, *Left Turn*, and *Critical Moment*. William C. Martin has freshly reinterpreted the Tao Te Ching to speak directly and clearly to the most difficult of modern tasks -- parenting. With its combination of free verse and judicious advice, The Parent's Tao Te Ching addresses the great themes that permeate the Tao and that support loving parent- child relationships: responding without judgment, emulating natural processes, and balancing between doing and being.
