This rousing account is the exclusive, authorized memoir of international rights icon Mukhtar Mai, whose courageous struggle for justice earned her

acclaim as "the Rosa Parks of Pakistan."

In June 2002, journalists throughout the world began to hear of the gang rape of a Pakistani woman from the impoverished village of Meerwala. The rape was ordered by a local clan known as the Mastoi and was arranged as punishment for indiscretions allegedly committed by the woman's brother. While certainly not the first account of a female body being negotiated for honor in a family, and (sadly) not the last, journalists and activists were captivated. This time the survivor had chosen to fight back, and in doing so, single-handedly changed the feminist movement in Pakistan. Her name was Mukhtar Mai, and her decision to stand up to her accusers was an act of bravery unheard of in one of the world's most adverse climates for women. By July 2002, Mai's case was headline news in Pakistan and under international scrutiny, the government awarded her the equivalent of 8,500 U.S. dollars in compensation money (a historic settlement), and her attackers were sentenced to death. Mukhtar Mai went on to open a school for girls in an effort to ensure that future generations would not suffer, as she had, from illiteracy. In this rousing account, Mai describes her experience and how she has since become an agent for change and a beacon of hope for oppressed women around the world. Timely and topical, *In the Name of Honor* is the remarkable and inspirational memoir of a woman who fought and triumphed against exceptional odds.

Murder in the Name of Honour is Rana Husseini's hard-hitting and controversial examination of honour crimes. Common in many traditional societies around the world, as well as in migrant communities in Europe and the USA, they involve a 'punishment'—often death or disfigurement—carried out by a relative to restore the family's honour. Breaking through the conspiracy of silence surrounding this crime, one writer above all others has been instrumental in bringing it to the world's attention: Rana Husseini.

The British Royal Navy entered the War of 1812 expecting victory. Naval victories of the previous two decades and the mythos of Lord Nelson had built a naval culture accustomed to aggressive action and victory against all odds. No one expected the tiny United States Navy to triumph, and yet by the year's end three British frigates and two sloops ha

Home from Iraq, a lieutenant kills his commanding officer—was it self-defense or premeditated murder? An enthralling novel of suspense about the high cost of war and secrets *The McCarrans* and the *Gallaghers*, two military families, have been close for decades, ever since Anthony McCarran—now one of the army's most distinguished generals—became best friends with Jack Gallagher, a fellow West Pointer who was later killed in Vietnam. Now a new generation of soldiers faces combat, and Lt. Brian McCarran, the general's son, has returned from a harrowing tour in Iraq. Traumatized by wartime experiences he will not reveal, Brian depends on his lifelong friendship with Kate Gallagher, Jack's daughter, who is married to Brian's commanding officer in Iraq, Capt. Joe D'Abruzzo. But since coming home, D'Abruzzo also seems changed by the experiences he and Brian shared—he's become secretive and remote. Tragedy strikes when Brian shoots and kills D'Abruzzo on their army post in Virginia. Brian pleads self-defense, claiming that D'Abruzzo, a black-belt martial artist, came to his quarters, accused him of interfering with his marriage, and attacked him. Kate supports Brian and says that her husband had become violent and abusive. But Brian and Kate have secrets of their own, and now Capt. Paul Terry, one of the army's most accomplished young lawyers, will defend Brian in a high-profile court-martial. Terry's co-counsel is Meg McCarran, Brian's sister, a brilliant and beautiful attorney who insists on leaving her practice in San Francisco to help save her brother. Before the case is over, Terry will become deeply entwined with Meg and the *McCarrans*—and learn that families, like war, can break the sturdiest of souls.

A timely, nonstop action-adventure about the War on Terror -- and a family torn apart. Kamran Smith has it all. He's the star of the football team, dates the most popular girl in school, and can't wait to join the Army like his big brother, Darius. Although Kamran's family hails from Iran, Kamran has always felt 100% American. Accepted. And then everything implodes. Darius is accused of being a terrorist. Kamran refuses to believe it, but the evidence is there -- Darius has been filmed making threats against his country, hinting at an upcoming deadly attack. Kamran's friends turn on him -- suddenly, in their eyes, he's a terrorist, too. Kamran knows it's up to him to clear his brother's name. In a race against time, Kamran must piece together a series of clues and codes that will lead him to Darius -- and the truth. But is it a truth Kamran is ready to face? And is he putting his own life at risk?

A shockingly intimate look at the world of honor killings, as seen through the eyes of both the perpetrators and the victims. What drives a person to murder their sister, mother, or daughter? What is life like in a society in which women are imprisoned for their own "protection," while their potential killers walk free? In this powerful and affecting book, writer and journalist Lene Wold offers a rare window into the world of "honor killings"—the

controversial practice that sees more than five thousand women murdered at the hands of close relatives each year, all to restore their family's reputation. Wold spent more than five years in Jordan, visiting prisons and mosques, reviewing newspapers and judicial archives, and interviewing imams, village elders, and other locals to understand these violent acts. But she also spoke with the killers themselves, including a man who murdered his mother and daughter and attempted to kill his other daughter. In Inside an Honor Killing, Wold shares what she learned, weaving a shocking tale of honor killing told from the perpetrators' perspective as well as the victims'.
