orphanage in this “riveting” British crime thriller by an Edgar Award finalist (Publishers Weekly, starred review). With profiler Tony Hill behind bars and Carol Jordan no longer with the police, he’s finding unexpected outlets for his talents in jail and she’s joined forces with a group of lawyers and forensics experts looking into suspected miscarriages of justice. But they’re doing it without each other; being in the same room at visiting hour is too painful to contemplate. Meanwhile, construction is suddenly halted on the redevelopment of an orphanage after dozens of skeletons are found buried at the site. Forensic examination reveals they date from between twenty and forty years ago, when the nuns were running their repressive regime. But then a different set of skeletons is discovered in a far corner—young men from as

recent as ten years ago. When newly promoted DI Paula McIntyre discovers that one of the male skeletons is that of a killer who is supposedly alive and behind bars—and the subject of one of Carol's miscarriage investigations—it brings Tony and Carol irresistibly into each other's orbit once again in this masterfully plotted novel by “the queen of psychological thrillers” (Irish Independent).

Psychologist Tony Hill and ex-DCI Carol Jordan—the UK crime fighting partners from the TV series *Wire in the Blood*—face down a serial killer. International bestselling crime writer Val McDermid's work speaks for itself: her books have sold millions of copies worldwide, won numerous accolades, and attracted a devoted following of readers around the

globe. Cross and Burn picks up where *The Retribution* left off: following the best crime-fighting team in the UK—clinical psychologist Tony Hill and police detective Carol Jordan—who when we last saw them were barely speaking, and whose relationship will now be challenged even further. But just because they're not talking doesn't mean the killing stops. Women are being murdered—ones who bear an unsettling resemblance to Carol Jordan. And when the evidence begins to point in a disturbing direction, thinking the unthinkable seems the only possible answer. Cornered by events, Tony and Carol are forced to fight for themselves and each other as never before. "McDermid is as smooth a practitioner of crime fiction as anyone out there . . . She's the best we've got." —The New York Times Book Review

The bestselling “Queen of Crime reigns again” when a profiler and an ex-cop investigate the suspicious deaths of women targeted by Internet trolls (Independent, UK). From the international bestselling author of *The Mermaids Singing* and *The Wire in the Blood* comes the ninth installment of her beloved series featuring psychologist Tony Hill and former DCI Carol Jordan . . . Vicious online attacks seem to be driving outspoken women to silence themselves through suicide. Yet for profiler Tony Hill, who knows a thing or two about patterns in human behavior, something doesn't add up. Carol Jordan, meanwhile, is too busy tackling her own demons to think about a potential serial killer. But when she gets an opportunity for a second chance, it's game on. This

Deputy coroner Clay Edison goes to extreme lengths for a forgotten Jane Doe in the new thriller from a father-son team of bestselling authors who write "brilliant, page-turning fiction" (Stephen King). "As for the keen sense of drama, it must be a genetic trait. . . . The Kellermans show compassion for the survivors, including conscientious officials like Edison."--The New York Times Book Review Former star basketball player Clay Edison is busy. He's solved a decades-old crime and redeemed an innocent man, earning himself a suspension in the process. Things are getting serious with his girlfriend. Plus his brother's fresh out of prison, bringing with him a

whole new set of complications. Then the phone rings in the dead of night. A wild party in a gentrifying East Bay neighborhood. A heated argument that spills into the street. Gunshots. Chaos. For Clay and his fellow coroners, it's the start of a long night and the first of many to come. The victims keep piling up. What begins as a community tragedy soon becomes lurid fodder for social media. Then the smoke clears and the real mystery emerges--one victim's death doesn't match the others. Brutalized and abandoned, stripped of ID, and left to die: She is Jane Doe, a human question mark. And it falls to Clay to give her a name and a voice. Haunted by the cruelty of her death, he embarks upon a journey into the bizarre, entering a hidden world where innocence and perversity meet and mingle. There, his relentless pursuit of

the truth opens the gateway to a dark and baffling past--and brings him right into the line of fire. Praise for A Measure of Darkness "Edison is an interesting protagonist, a good man for whom finding the truth is more important than anything else, including his own safety. He's gentle and strong, compassionate and ruthless, methodical and impulsive. A strong sequel to Crime Scene that will leave readers wanting to see more of Edison."--Booklist

A suspenseful new murder mystery set in a crumbling monastery--turned--Soviet prison in the early twentieth century. In a former monastery on an island in the White Sea, now taken over by the Bolsheviks, young mathematician Tolya Bogomolov is serving a three-year sentence, watched

over by a skeleton crew of secret policemen. Some prisoners are consigned to forced labor while others sit at comfortable desks. So Tolya has been cultivating an acquaintance with Gennady Antonov that he hopes will lead to a better work assignment—maybe even a little more bread in his ration—especially now, with the brutal winter fast approaching. Gennady holds a privileged position restoring the monks' seized collection of icons. But when his body is discovered floating frozen in the bay, Tolya's connection with him is no longer advantageous—it's downright dangerous. At first, the authorities question Tolya. But he's mystified when they assign him to assist the elderly detective investigating the case. While he'd rather find the real killer than have the murder pinned on him, digging into Gennady's secrets will

turn up mysteries that could turn Tolya into the next victim . . .

Dr. Tony Hill and Detective Chief Inspector Carol Jordan return in the award-winning series that is the basis for the BBC television show. In a small grim room, the body of a woman is discovered, panic and pain etched in her face. The scene matches in every detail a series of murders two years ago-murders that ended when irrefutable forensic evidence secured the conviction of a deeply disturbed young man named Derek Tyler. But there's no way Tyler could have killed the latest victim. He's been locked up in a mental institution since his trial, barely speaking a word. So is there a copycat? All his years of experience tell top criminal psychologist Dr. Tony Hill that there isn't-but that would make

the murders literally impossible. While Hill tries to crack Tyler, DCI Carol Jordan and her team must mount a desperate undercover operation to trap the murderer-a decision that will have terrible consequences. In *The Torment of Others*, Val McDermid keeps the tension mounting, as a mixture of psychological insight and dogged detective work leads inexorably to a terrifying climax where Tony faces one of the most perverse killers he has ever encountered.

Across the country, dozens of teenage girls have vanished. Authorities are convinced they're runaways with just the bad luck of the draw to connect them. It's the job of criminal profilers Dr. Tony Hill and Carol Jordan to look for a pattern. They've spent years exploring the psyches of madmen. But

sane men kill, too. And when they hide in plain sight, they can be difficult to find... He's handsome and talented, rich and famous--a notorious charmer with the power to seduce...and the will to destroy. No one can believe what he's capable of. No one can imagine what he's already done. And no one can fathom what he's about to do next. Until one of Hill's students is murdered--the first move in a sick and violent game for three players. Now, of all the killers Hill and Jordan have hunted, none has been so ruthless, so terrifyingly clever, and so brilliantly elusive as the killer who's hunting them... Val McDermid's *The Wire in the Blood* is "A superb psychological thriller" (Cosmopolitan).
