International development : issues and challenges - DRO

The challenge of adapting to this level of climate change is absolutely not a stand-alone area of activity. On the contrary, it will intensify the challenges on all areas of development – from agriculture to cities, and from health to the risk of violent conflict. At the same time, the price tag for achieving the MDGs will be substantially higher than it would have been without climate change – as a result of which adaptation finance needs to be additional.

10 key issues for international development

Written by experts with extensive field experience, this text introduces key issues in the development debate from how the developing world is changing global order to discussions on gender and development as well as security and development. Global Issues Overview | United Nations

It applies particularly to 'international development' rather than to continuing and/or sustainable development in more developed economies. Our main focus in examining climate change and development is on the problems of underdevelopment in poorer countries, but we also consider a number of lessons and interactions between this and development processes and goals in more wealthy societies.

1.2 Development challenges

It addresses the fundamental question of what 'development' actually is and examines social, economic and environmental development across the globe. Written by experts with extensive field...
