ISO/IEC 27002:2013 gives guidelines for organizational information security standards and information security management practices including the selection, implementation and management of controls taking into consideration the organization's information security risk environment (s). It is designed to be used by organizations that intend to:

ISO – ISO/IEC 27002:2013 – Information technology –

ISO/IEC 27002:2013 is the new international Standard which supports the implementation of an ISMS based on the requirements of ISO27001. If you are implementing or thinking about implementing an ISMS, you need both of these standards as your principle point of reference. ISO 27001 is the only security Standard that takes an integrated approach to information security, addressing the three essential facets of cyber security (people, processes and technology) in a single cohesive strategy.

ISO/IEC 27001:2013 and ISO/IEC 27002:2013 Standards **Ireland**

ISO IEC 27002 2005 had 11 main sections (5 to 14) while ISO IEC 27002 2013 now has 14 (5 to 18).

ISO IEC 27002 2013 vs ISO IEC 27002 2005 – previous.com

In 2013 the current version was published. ISO 27002:2013 contains 114 controls, as opposed to the 133 documented within the 2005 version. However for additional granularity, these are presented in fourteen sections, rather than the original eleven.

Introduction to ISO 27002 / ISO 27002

The ISO/IEC standard was revised in 2005, and renumbered ISO/IEC 27002 in 2007 to align with the other ISO/IEC 27000-series standards. It was revised again in 2013. It was revised again in 2013. Later in 2015 the ISO/IEC 27017 was created from that standard in order to suggesting additional security controls for the cloud which were not completely defined in ISO/IEC 27002.

ISO/IEC 27002 – Wikipedia

The second edition of ISO/IEC 27002 was published in 2013 at the same time as ISO/IEC 27001. The decision to drop the definition of "information asset" from ISO/IEC 27000 rather than truly bottom out this issue may prove to have been a tactical error.

ISO/IEC 27002 code of practice

ISO/IEC 27001:2013 and ISO/IEC 27002:2013 Includes both the new (autumn 2013) editions of ISO/IEC 27001 and ISO/IEC 27002. Is made up of both new International Standards that have been updated to reflect international best practice for information security. Books Introduction to Information Security and ISO 27001

Comparing ISO 27001:2005 to ISO 27001:2013

Update 2013-09-25: This blog post was updated according to the final version of ISO 27002:2013 that was published on September 25, 2013. In my previous blog post I analyzed the changes between the old ISO 27001 (published in 2005) and the 2013 revision; naturally, controls from ISO 27001 Annex A cannot change without changing ISO 27002 because the essence of these two standards is to be aligned.

ISO 27002:2013 – Main changes in the structure

Therefore this version remains current. Abstract Preview ISO/IEC 27001:2013 specifies the requirements for establishing, implementing, maintaining and continually improving an information security management system within the context of the organization.

ISO – ISO/IEC 27001:2013 – Information technology –

The controls in ISO 27002 are named the same as in Annex A of ISO 27001 – for instance, in ISO 27002, control 6.1.2 is named "Segregation of duties," while in ISO 27001 it is "A.6.1.2 Segregation of duties."

ISO 27001 vs. ISO 27002 – What's the difference?

ISO/IEC 27001:2013 The internationally acclaimed standard for information security management (ISO/IEC 27001) and accompanying ISO/IEC 27002, 'Code of practice for information security management controls' was revised in October 2013.
