A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

"Busing, in which students were transported by school buses to achieve court ordered or voluntary school desegregation, became one of the nation's most controversial civil rights issues in the decades after Brown v. Board of Education (1954). Examining battles over school desegregation in cities like Boston, Chicago, New York, and Pontiac, Why Busing Failed shows how school officials, politicians, courts, and the news media valued the desires of white parents more than the rights of black students, and how antibusing parents and politicians borrowed media strategies from the civil rights movement to thwart busing for school desegregation. This national history of busing brings together well-known political figures such as Richard Nixon and Chicago Mayor Richard J. Daley, with less well known figures like Boston civil rights activist Ruth Batson, Florida Governor Claude

Kirk, Pontiac housewife and antibusing activist Irene McCabe, and Clay Smothers (the self-proclaimed "most conservative black man in America"). This book shows that "busing" failed to more fully desegregate public schools because school officials, politicians, courts, and the news media valued the desires of white parents more than the rights of black students"--Provided by publisher.
