Continuing on from the previously published Primary School English-Language Education in Asia: From Policy to Practice (Moon & Spolsky, 2012), this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul, Korea. It surveys the current status, practices, challenges, and future directions of Secondary English education in 11 diverse countries - in Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. Secondary School English Education in Asia: From Policy to Practice critically analyses both sides of the English language debate – from advantages to complications – in its chapters including: Educating for the 21st Century: The Singapore Experience Miles to Go ...: Secondary Level English Language Education in India English Language Education Innovation for the Vietnamese Secondary School: The Project 2020 Exploring the Value of ELT as a Secondary School Subject in China: A Multi-goal Model for English Curriculum Secondary School English Education in Asia will appeal to English Language Teaching (ELT) researchers, teacher educators, trainee teachers and teachers, primarily those teaching in Asia.

Examines research issues in Aboriginal languages, English, Pacific languages and community languages such as language acquisition, language and education, language and ideology and language policy; chapter on theories of grammar, work on typology and universals and semantics.

The level of immigration to the United States has never been higher, with more than a million immigrants, legal and illegal, entering every year. This massive, new immigration, dominated by people from Latin America and Asia, is placing unique demands upon schools, colleges, vocational training centers, and adult education agencies. David Stewart illustrates that the root of these difficulties lies in the absence of coordination between the federal government's immigration policy and related education policies at the federal, state, and local levels.
