thought they'd give Jumanji a try. Little did they know when they unfolded its ordinary-looking playing board that they were about to be plunged into the most exciting and bizarre adventure of their lives. In his second book for children, Chris Van Allsburg again explores the ever-shifting line between fantasy and reality with this story about a game that comes startlingly to life. His marvelous drawings beautifully convey a mix of the everyday and the extraordinary, as a quiet house is taken over by an exotic jungle.

From New York Times culture reporter Dave Itzkoff, the definitive biography of Robin Williams – a compelling portrait of one of America's most beloved and misunderstood entertainers. From his rapid-fire stand-up comedy riffs to his breakout role in Mork & Mindy and his Academy Award-winning performance in Good Will Hunting, Robin Williams was a singularly

innovative and beloved entertainer. He often came across as a man possessed, holding forth on culture and politics while mixing in personal revelations – all with mercurial, tongue-twisting intensity as he inhabited and shed one character after another with lightning speed. But as Dave Izkoff shows in this revelatory biography, Williams's comic brilliance masked a deep well of conflicting emotions and self-doubt, which he drew upon in his comedy and in celebrated films like *Dead Poets Society*; *Good Morning, Vietnam*; *The Fisher King*; *Aladdin*; and *Mrs. Doubtfire*,

where he showcased his limitless gift for improvisation to bring to life a wide range of characters. And in Good Will Hunting he gave an intense and controlled performance that revealed the true range of his talent. Itzkoff also shows how Williams struggled mightily with addiction and depression – topics he discussed openly while performing and during interviews – and with a debilitating condition at the end of his life that affected him in ways his fans never knew. Drawing on more than a hundred original interviews with family, friends, and colleagues, as

well as extensive archival research, Robin is a fresh and original look at a man whose work touched so many lives.

With the Civil Rights movement of the sixties fresh in their perspective, movie producers of the early 1970s began to make films aimed toward the underserved African American audience. Over the next five years or so, a number of cheaply made, so-called blaxploitation movies featured African American actresses in roles which broke traditional molds. Typically long on flash and violence but lacking in

character depth and development, this genre nonetheless did a great deal toward redefining the perception of African American actresses, breaking traditional African American female stereotypes and laying the groundwork for later feminine action heroines. This critical study examines the ways in which the blaxploitation heroines of the early 1970s reshaped the presentation of African American actresses on screen and, to a certain degree, the perception of African American females in general. It discusses the social, political and cultural context in which

blaxploitation films emerged. The work focuses on four African American actresses—Pam Grier, Tamara Dobson, Teresa Graves and Jeanne Belle—providing critical and audience response to their films as well as insight into the perspectives of the actresses themselves. The eventual demise of the blaxploitation genre due to formulaic plots and lack of character development is also discussed. Finally, the work addresses the mainstreaming of the action heroine in general and a recent resurgence of interest in black action movies. Relevant film stills
