other web 2.0 technologies such as video presentations, discussion boards, Google apps, Skype, video/web conferencing, and social media networking. Moreover, it offers advice for giving students the hands-on “ wet laboratory ” experience they need to learn science effectively, including the implications of implementing various lab experiences such as computer simulations, kitchen labs, and commercially assembled at-home lab kits. Finally, the book reveals how to get administrative and faculty buy-in for teaching science online and shows how to negotiate internal politics and assess the budget implications of online science instruction.

have to get up and get outside to experience the grandeur of God. In *Majestic and Wild*, pastor, writer, and avid outdoorsman Murray Pura weaves his real-life adventures with spiritual inspiration and life lessons, capturing the majestic and wild creation that God has set before us all. From animal encounters to wildfires to raging rapids to Daniel Boone hunts and buffalo stampedes, the stories range from dramatic and suspenseful to light-hearted and whimsical. Each story is woven with spiritual lessons not easily learned from sitting in a pew. A great gift for wives to give to their husbands and kids to give to their dads, *Majestic and Wild* will entertain and inspire anyone with a sense of adventure and a love for the great outdoors.

Manual contains dynamic and applied activities and experiments that help students both visualize anatomical structures and understand complex physiological topics. Lab exercises are designed in a way that requires students to first apply information they learned and then critically evaluate it. With many different format options available, and powerful digital resources, it ' s easy to customize this laboratory manual to best fit your course.

The Third Edition of *Biology: Science for Life with Physiology* continues to draw readers into biology through engaging stories that make difficult topics more accessible and understandable. Colleen Belk and Virginia Borden strive to make teaching and learning biology a better experience from both sides of the desk.
