Land Solutions for Climate Displacement

Displacement Solutions (DS) works with climate displaced persons, communities, governments and the UN to find rights-based land solutions to climate displacement. DS also works to empower displaced people and refugees to exercise their right to return and have restored to them their original homes, lands and properties through reliance on the right to restitution.

Displacement Solutions | Land Portal

THE LAND SEEKERS Our work around the world with climate displaced communities has shown DS time and time again that land lies at the core of rights-based solutions to climate displacement. This short film contains interviews of some of the world's first 'landseekers' who work tirelessly in support of climate displaced communities everywhere.

Land Solutions for Climate Displacement: Leckie, Scott ...

potential solutions to climate displacement, including that: • Communication and coordination between the Government, affected communities and civil society on climate displacement issues should be increased; • Engagement and support from the regional and international communities for climate displacement in Bangladesh should be enhanced;

Climate Displacement in Bangladesh

As these four very brief examples reveal, climate change has forced those who care about displacement into the unfamiliar position of seeking solutions before displacement occurs: in effect, becoming land seekers for future displaced communities and active advocates for resettlement when remaining in place fails to be a viable option.
