Michel Strauss embarked on an enduring love affair at the age of six when he saw for the first time paintings by Manet, Monet and Degas: the passion aroused by these artists never left him. This passion, this 'eye' as he calls it led to his becoming Head of the Impressionist Department at Sotheby's where he remained for forty years. He describes the personalities he met along the way: the collectors, the dealers, the colleagues and even the forgers, as well as the clients who shared his passion. There were times of boom and times of recession, there were very difficult times -in particular the anti-trust era -and there were times that brought great delight and a sense of achievement, in particular the British Rail Pension Fund sale which Michel had helped set up and which exceeded all expectations. An authoritative and highly respected figure in the art world, Michel Strauss has handled the greatest of all Impressionist works, some of which it was thought had been lost forever.

This volume explores the history of Sotheby's auction house, tracing its beginnings back to 1744. It was in the latter half of the 19th century, when economic instability forced the aristocrats to sell off many of their treasures, that Sotheby's began to lay the foundations of the modern art market. The Sotheby's-Christie's rivalry intensified in the early-1900s and they have been battling it out ever since over the likes of Cezanne, Picasso, Van Gogh and Monet. Lacey takes the reader through the unprecedented boom of the 1980s, when Van Gogh's Irises went for \$53.9 million, and examines the catastrophic effects of an inflation still being felt today.

UK companies are governed by legal and other regulatory requirements impacting elements of financial statements that are common to users of both International Financial Reporting Standards (IFRS) and UK GAAP. These are often referred to as the 'front half' of the financial statements. This publication contains the guidance applicable to all UK companies regardless of the GAAP under which their financial statements are prepared. Key updates from the previous edition (Manual of Accounting: Management Reports and Governance 2011) include updated chapters on business review and corporate governance, with many more illustrations and examples. Written by PwC's UK Assurance Risk and Quality team, the manual includes practical advice based on PwC's work advising clients, partners, and staff. The book will be of particular interest to finance directors, accountants, legal practitioners, company administrators, financial advisors, and auditors.
