Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Originally published in hardcover in 2008.

Philip Hodgins is a younger writer who has already made a unique place for himself in Australian poetry, with his anti-Romantic, unwavering depictions of the reality of farming life in this country. Here, in *Dispossessed*, his verse novella, the reader is more than ever conscious of the contrasting subtlety, understatement, and suggestion in the way that he handles this theme. *Dispossessed* is told in the laconic and brutally unillusioned style of a rural anecdote, but in its form and its perceptions it shows a high level of sophistication.

This introductory textbook provides a thorough guide to the management of food and beverage outlets, from their day-to-day running through to the wider concerns of the hospitality industry. It explores the broad range of subject areas that encompass the food and beverage market and its five main sectors – fast food and popular catering, hotels and quality restaurants and functional, industrial, and welfare catering. New to this edition are case studies covering the latest industry developments, and coverage of contemporary environmental concerns, such as sourcing, sustainability and responsible farming. It is illustrated in full colour and contains end-of-chapter summaries and

revision questions to test your knowledge as you progress. Written by authors with many years of industry practice and teaching experience, this book is the ideal guide to the subject for hospitality students and industry practitioners alike.

In the city that invented the diner, so many amazing restaurants remain only in memories. The Silver Top had fresh coffee every twenty minutes, and the Ever Ready was hot dog heaven. Miss Dutton's Green Room and the Shepard Tea Room beckoned shoppers in their Sunday finest. At Childs, the griddle chef made butter cakes in the window for night owls, and Harry Houdini supped at midnight with H.P. Lovecraft at the Waldorf Lunch. Themed lounges like the Beachcomber and the Bacchante Room chased away the Prohibition blues. DOWNCITY Diner offered a famous meatloaf, and Ming Garden's Ming Wings were a staple for regulars. Author David Norton Stone details the restaurants that still hold a place in the hearts of locals.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.
