Have you ever noticed that there are certain people who seem to get ahead just a bit faster than everyone else? You know, the types who always seem to be a bit ahead of the curve, to get noticed a bit more, and to achieve their goals a bit more quickly than the rest of the pack? And have you ever noticed how much this small edge can matter, and the outsized impact it can have on the trajectory of their careers? Twenty-four year old entrepreneur Brian Wong is one of these people, having graduated from college by age 18, having raised \$24 million in venture capital to start his own company before he turned 25, and having grown that company into a global mobile advertising giant in just 4 years. His secret? The Cheat Code. Wong believes that most people -- even creative people -- have a tendency to follow a script; to do things the way others do them simply because that way works. But therein lies the secret at the heart of the Cheat Code: anyone can easily shortcut his or her way to success, simply by going slightly off script; by doing things just a little differently from everyone else. Here, Wong unlocks the power of the Cheat Code through 71 bite-sized and virtually effortless short-cuts to get a leg up on the competition, garner attention for ourselves and our ideas, and accelerate our success. For example: Cheat #7: Don't Ask – Announce Cheat #16: Know Your Superpower! Cheat #32: Make Boldness Your Genius Cheat #47: Know Who's the Boss Cheat #49: Get a Trademark Haircut Cheat #51: Use Exclamation Points Cheat #55: Focus on What Won't Change Cheat #71: Imagine, What If? No matter where you aspire to go in your life or career, THE CHEAT CODE will help get you there - faster.

Many couples are too quick to call it quits in their marriages, causing the divorce rate to be high in today's society. In her book The Lifeguard and the Girl Who Could Barely Swim, Genevieve Fernandez shares the story of her relationship with her husband, Felix.Through their experiences with challenges such as an eight-year-age difference, long-distance dating, having their faith tested, separation during Desert Storm, coping with infertility, and much more, Genevieve hopes couples can find hope and inspiration to fight for their marriages, that they would reconsider divorcing over small or inconsequential issues. You will laugh with them and cry with them as Genevieve takes you through the story of an enduring love story that has lasted over thirty years.Her prayer is that engaged couples would have a plan as they enter marriage and make the Lord the foundation of their relationship so that they can withstand the trials that will inevitably come their way, that married couples contemplating divorce would reconsider and take a stand to fight for their marriages and strive to make their relationship not only last but flourish. She encourages couples to have a biblical foundation to ground them and to better deal with trials when they come. Genevieve shares some of the insight and lessons she and Felix have learned in all their years together to have a healthy, thriving, and sustaining marriage. It may not be a perfect marriage, but it's good, it's strong, and it's beautiful. Her prayer is that more couples find that same kind of victory in their marriages as well.25

During the 1930s in the United States, the Works Progress Administration developed the Federal Writers' Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The beautiful landscape as well as the significant role of the coal mining industry are both detailed in the WPA Guide to West Virginia. The essay "Country Folk and Country Ways" gives the reader an idea of how rural life was in the Mountain State in the early 20th century and the descriptions of Charleston, Clarksburg, and other cities are complete with stunning photographs of classic Southern architecture.
