The epic true story of Themistocles and the Battle of Salamis, and a rousing history of the world's first dominant navy and the towering empire it built The Athenian Navy was one of the finest fighting forces in the history of the world. It engineered a civilization, empowered the world's first democracy, and led a band of ordinary citizens on a voyage of discovery that altered the course of history. With Lords of the Sea, renowned archaeologist John R. Hale presents, for the first time, the definitive history of the epic battles, the fearsome ships, and the men-from extraordinary leaders to seductive rogues-that established Athens's supremacy. With a scholar's insight and a storyteller's flair, Hale takes us on an unforgettable voyage with these heroes, their turbulent careers, and far-flung expeditions, bringing back to light a forgotten maritime empire and its majestic legacy.

The escalation of piracy in the waters east and south of Somalia has led commentators to call the area the new Barbary, but the Somali pirates cannot compare to the three hundred years of terror supplied by the Barbary corsairs in the Mediterranean and beyond. From 1500 to 1800, Muslim pirates from the Barbary Coast of North Africa captured and enslaved more than a million Christians. Lords of the Sea relates the history of these pirates, examining their dramatic impact as the maritime vanguard of the Ottoman Empire in the early 1500s through their breaking from Ottoman control in the early seventeenth century. Alan Jamieson explores how the corsairs rose to the apogee of their powers during this period, extending their activities from the Mediterranean into the Atlantic and venturing as far as England, Ireland, and Iceland. Serving as a vital component of the main Ottoman fleet, the Barbary pirates also conducted independent raids of Christian ships and territory. While their activities declined after 1700, Jamieson reveals that it was only in the early nineteenth century that Europe and the United States finally curtailed the Barbary menace, a fight that culminated in the French conquest of Algiers in 1830. A welcome addition to military history, Lords of the Sea is an engrossing tale of exploration, slavery, and conquest.

"Lords of the Sea revises our understanding of the epochal political, economic, and cultural transformations of Japan's late medieval period (1300-1600) by shifting the conventional land-based analytical framework to one centered on the perspectives of seafarers usually dismissed as 'pirates'"--Provided by publisher.

European traders and soldiers established a foothold on Timor in the course of the seventeenth century, motivated by the quest for the commercially vital sandalwood and the intense competition between the Dutch and the Portuguese. Lords of the Land, Lords of the Sea focuses on two centuries of contacts between the indigenous polities on Timor and the early colonials, and covers the period 1600-1800.

Habab polity was, within living memory, one of a lord (Shumagalle) and serf (Tigre) relationship. In the 1870s/1880s, the Habab were subjected to pressures from the strong characters ruling in the surrounding lands: Ras Ahlula in the Hamassien, the Mahdist Emir Osman Digna, Colonel Kitchener, Governor of the Anglo-Egyptian enclave of Suakin, and in Massaua the Egyptians and later the Italians. In 1887, the Kantibai of the Habab signed a treaty of Protection with the Italians. In the period from 1887 to 1895, the Habab, in a fraught process, had to come to terms with the European concept of sovereignty. Anthony D'Varray's work is primarily based on documents left by Italian administrators based at Nakfa in Eritrea in the late 19th century. They reported matters of current importance, and also the extensive oral traditions of the Habab and other peoples of the Red Sea coasts. Other primary sources, notably from the Public Record Office in London supplement the Nakfa documents.

Captain Isaac Biddlecomb is given the dangerous task of transporting Dr. Benjamin Franklin to France on a mission to bring the French into the Revolutionary War on the side of the American colonists.

The classic study of human nature which depicts the degeneration of a group of schoolboys marooned on a desert island.

Focusing mainly on the Mappila Muslim trading family of the Arackal Ali Rajas, this book throws light on the repercussions of European commercial expansion on the traditional socio-political relations in the South Indian kigdom of Cannanore during the early-modern period.

Tattooed mer-shifters are climbing out of the secret depths to claim their soul mates and save their race. Determined warlord Torun cannot wait to claim Lucy, who mistook him for a shipwreck survivor and pulled his injured body from the ocean. All his instincts tell him she is his soul mate. Now she must join with him and give him a child. Lucy can't believe the words coming out of this dominant male. He insists her destiny is to become a mermaid queen and mother to his future children. The one thing "destiny" forgot to mention was that Lucy's a broke divorcee who can't even have a child. It's really too bad, because his gorgeous lips are all too kissable, and she'd love to see his iridescent gold tattoos moving as he flexed those broad, hard pectorals under the water... But Torun's in more immediate danger than a bad bump to the head, and Lucy is the only one who can save him. Their choices will either save the entire race of mermen, or destroy it. This is a complete novel with a happy ending. Also, it features steamy mer shifter love scenes, underwater gun fights, and a giant female octopus named Mr. Huggles. Fall in love with these men of the sea!

Tattooed mer-shifters are climbing out of the secret depths to claim their soul mates and save their race! Steadfast mer king, Kadir, has endured ridicule, banishment, and undersea prison for his belief that modern human women will save their dwindling race. Freed to found a city of mermen shifters who share his beliefs, he sets out to the surface to woo his bride. And sweet, sensual Elyssa is his.Elyssa can't even match her socks. How can she rule an undersea kingdom? But when King Kadir holds her in his bulging, silver-tattooed arms and claims her as his soul mate, deep down the shy introvert holds big dreams. Maybe his magical elixir will transform her into more than just a mousy, water-breathing version of herself. Maybe it will make her into an exceptional woman worthy to be a queen.All is not well in the fragile new city, and it will take every ounce of Elyssa's bright courage and Kadir's unshakeable faith to prove humans and mer shifters can live in harmony. Someone will stop at nothing to end this experiment. And they have deadly allies...This is a complete novel with a happy ending! Also, it features steamy mer shifter love scenes, exciting shark attacks, and a crotchety giant cephalopod named Octopus Kong. Fall in love with these men of the sea!
