Andrew B Abel (2017), Crowding Out in Ricardian Economies, Journal of Monetary Economics, forthcoming. Abstract: The crowding-out coefficient is the ratio of the reduction in privately-issued bonds to the increase in government bonds that are issued to finance a tax cut. If (1) Ricardian equivalence holds, and (2) households do not simultaneously borrow risklessly and have positive gross positions in other riskless assets, the crowding-out coefficient equals the fraction of the aggregate tax ...

easy for instructors to align chapters to fit their own syllabi. Students in this course often struggle to see how the macroeconomic models compare to one another, and fit into the big picture. This text uses a unified approach based on a single economics model that provides students with a clear understanding of macroeconomics and its classical and Keynesian assumptions. The main objective of the eighth edition is to keep the book fresh and up-to-date, especially in light of the recent crises in the United States and Europe and many new tools used by the Federal Reserve in response to the crisis. To reflect recent events and developments in the field, revisions have been made throughout the text, and additional new applications, boxes, and problems are included. 0133407926 / 9780133407921 Macroeconomics Plus NEW MyEconLab with Pearson eText -- Access Card Package Package consists of 0132992280 / 9780132992282 Macroeconomics 0132993325 / 9780132993326 NEW MyEconLab with Pearson eText -- Access Card -- for Macroeconomics Note: MyEconLab is not a self-paced technology and should only be purchased when required by an instructor.

Intermediate Macroeconomics. This text is the most even-handed and comprehensive treatment of the competing classical and Keynesian approaches in the market. By starting with topics on which the two approaches agree, the book highlights the common ground between them and then clearly presents the outstanding differences within the context of a single framework. Macroeconomics now includes a password that gives students access to a special edition of The Conference Board's Business Cycle Indicators database containing over 100 hand-picked data series. Accompanying exercises in the text provide a unique opportunity for students to analyze the very data that policy makers, professional economists, and government officials rely on in their day-to-day work. *NEW! Earlier presentation of business cycles. *NEW! Included are new EOC problems (including the Conference Board exercises), many new applications, and new built-in Web links. *NEW! Web site features, including: *Up-to-date version of The Conference Board's Business Cycle Indicators, which students can access to complete the new Conference Board problems at the end of the text chapters. *Sample worked problems. * Self-test quizzes
