A Kundli is a form in which the position of all the main planets of the universe at the time of man's birth is described. With the help of this, the position of the planets in the future is estimated according to the motion of the planets and from them the future effects in human life are calculated by Janam Patri.

This book deals with the fundamentals

of Horoscope matching. Today "Horoscope matching" has become the indispensable part of Hindu marriage. But it has not been mentioned in any old Jataka scripture of Astrology. However, it has been described in the Muhurta scriptures of the same. In Ramayan, marriage of Rama, Bharata, Lakshmana and Shatrughna has been described elaborately. But, in this great epic also Horoscope matching has not been mentioned. Likewise, in Mahabharata, too, it has not been cited. Therefore, it can be said that Horoscope matching in Astrology was not in practice a few centuries ago. But, the community accepted and made it an indispensable part keeping its usefulness in view. Different systems of Horoscope matching are in practice in different parts of India. In North

India, Ashtakuta matching is in practice whereas in South Dasakuta matching is in fashion. But Ashtakuta matching is in vogue in most part of India. This is why the All India Federation of Astrologers' Societies has accepted and prescribed this system of Ashtakuta matching for the courses of its students. The book has been written keeping in view the courses introduced by the All India Federation of Astrologers' Societies, Delhi. The students are advised to study 'Kundali Milana-Sukhi Dampatya Jeevana Ka Adhar' because prediction of a happy married life cannot be made by Ashtakuta matching only. This shows only the amity, love and mutual understanding between the two. But to determine the age, health and ups and downs in life of the couple some other aspects such

as Period-sub-period, Dosha Samya etc. are also essential to be analyzed. An analysis of long conjugal life is essential for its stability. So, apart from Ashtakuta matching, we should keep in view other aspects also. To know all this, [Kundali Milan] Sukhi Dampatya Jeevana Ka Adhara is prescribed.

From its earliest days, Buddhism has been closely intertwined with medicine. Buddhism and Medicine is a singular collection showcasing the generative relationship and mutual influence between these fields across premodern Asia. The anthology combines dozens of English-language translations of premodern Buddhist

texts with contextualizing introductions by leading international scholars in Buddhist studies, the history of medicine, and a range of other fields. These sources explore in detail medical topics ranging from the development of fetal anatomy in the womb to nursing, hospice, dietary regimen, magical powers, visualization, and other healing knowledge. Works translated here include meditation guides, popular narratives, ritual manuals, spells texts, monastic disciplinary codes, recipe inscriptions, philosophical treatises, poetry, works by physicians, and other genres. All together, these selections and their introductions provide a comprehensive overview of Buddhist healing throughout Asia. They also demonstrate the central place of healing in Buddhist practice and in the

You see, the score of Gun Milan remains very good in each case but the marriage may break in each one of these cases on account of different reasons in each example. Similarly, many other such combinations are possible which can break this marriage on account of many other reasons, though the score of Gun Milan may remain very high. What is the relevance of this system of Gun Milan if everything can change in a direction which is opposite to the one predicted by it?

Parashari Jaimini and Tajik are the three most popular systems of Vedic Astrology. Parashar gives more

importance to the planets while Jaimini considers the rashis to be more important. Tajik is mainly used in Prashna Shastra and in Varshaphal. Tajik diverts slightly always from the main stream of the traditional methods and employs newer techniques of Astrology. 'Tajik Neelakanthi', of Acharya Neelakantha, which was composed in the 16th century AD, is the base of Taik Jyotish. This does not mean that Varshaphal and Prashna techniques were not practised in vedic Astrology before this. 'Uttar Kalamrit' of Kalidas mentions and describes the computation of Varshaphal dasha which is different from the 'Mudda dasha' of Varshaphal. Apart from this, 'Shat Panchashikha' of Prithyushyas is the established classic of Prashna Shastra, which was composed centuries before 'Tajik Neelakanthi'.

Ancient Kairaleeya Jyotish is also well known for considering Prashna to be their main technique. The influence of Greek and Arab culture is clearly seen on the word 'Tajik'. Arrival of the invaders from Western Asia initiated the exchange of culture between India and West Asia. This exchange introduced some newer techniques to our Vedic Astrology. One of these techniques was Tajik. This has been marked as the beginning of Tajik jyotish. Tajik word does not belong to Sanskrit. There are different opinions regarding this issue. Some scholars consider it to be a distorted form of the word 'Jatak'. Another view is that meaning of Tajik is a horse in Turkish and Persian language. The speed of this technique has been compared to that of a horse and for this reason it has been named Tajik. In any case the

influence of Mohammedans on this knowledge is very clear. This is also confirmed by the other words of Tajik, namely mudda, muntha, sahams and the names of the Tajik yogas like lthasal, Ikkabal, Ishraf, nakta, radda and khallasar etc. Moving at the average speed of 1° per day, Sun completes one round of the Zodiac in one year. For casting the annual horoscope we select the time when Sun reaches the longitude of the natal Sun. The horoscope cast for that date and time becomes the annual horoscope and the Varshaphal is decided on the basis of this horoscope. In a similar manner prediction for any year of the person's life can be given on the basis of the annual horoscope. In other words the annual horoscope is based on the longitude of the natal Sun and not on

the date and time of birth. This also means that the date, day and time of the annual horoscope is generally different from that of the birth horoscope.
