I know Hondas better than just about anything, so they get their own section here. As for fluid, I know that the Honda manual says you can used 5W30 or 10W30 motor oil in their transmissions. I do not recommend this. In fact, I recommend that you only use Honda fluid in your Honda manual transmission. Browse Recommended Tools & Supplies For This Build

Completely drain the transmission fluid. Connect the transmission fluid pump to a bottle and drain out all of the fluid. Pump a small portion of new fluid into the fill plug to flush out any contaminants. Ensure that you have a little more transmission fluid than the volume listed in your owner's manual. Figure 5. Setting up the transmission fluid pump.
