The first title in PREP's new Business Success Series is designed to help individuals who want to prepare paperwork related to starting, growing, selling, or marketing a business. The book contains real business plans for those contemplating entrepreneurship as well as for those who have an ongoing business which they are interested in selling. Readers will see samples of real business plans used by real organizations to sell a business to public companies. Readers will also see samples of documents, paperwork, and financial statements used by real companies to obtain equity financing and bank loans. A valuable section of the book is the section which shows marketing tools and "business resumes" used to attract new customers and increase profitability. (The author holds an MBA from the Harvard Business School.)

Aims to help a new business avoid the financially draining pitfalls, and provide advice for existing businesses to help them expand and attract new customers. This book covers areas such as writing a business plan, finding a suitable location, devising an advertising campaign, employing staff and developing ways of encouraging customer loyalty.

"If I wanted to be a successful podiatrist the first thing I would do is read Tyson's book. In his own unique style, he shares exactly what he has done to be at the top of his game as one of the most successful podiatrists in the country. This is a book I strongly recommend." Andrew Griffiths (Australia's #1 Small Business Author)

"When technology meets health, nobody integrates them into business better than Tyson Franklin." Scott Sorensen (Director Bodytech Systems & Footpoint Australia)

Why do some Podiatrists have thriving, highly profitable businesses while others don't? Here's the simple truth: every successful Podiatrist thinks and behaves differently to every unsuccessful Podiatrist, and how you think and behave will have a direct influence on what you will or won't achieve in life, both personally and professionally. Does this mean that the amount of money you make equates to your level of success in Podiatry? No, it doesn't, but for some strange reason money does flow towards successful Podiatrists, and this book is all about learning what those successful Podiatrists do. From his many years experience running a highly profitable podiatry business, Tyson will share with you: where to locate your business to maximise traffic how to set your business apart from your competitors how to attract the right patients to help you enjoy your job more and increase your profits tips and techniques to streamline your operations how to find and keep the right staff the six Marketing Pillars that will get your message to the right people. It's No Secret, There's Money In Podiatry, however it will not happen overnight, it's something you have to work at for a number of years. It all starts with believing it's possible. By the time you put this book down you will be bouncing off the walls not just thinking it's a possibility but knowing how to make it a reality. Tyson Franklin was born with entrepreneurial DNA. Since graduating from the Queensland University of Technology in 1988, he has worked diligently towards being a successful podiatry business owner and a mentor to others. His long-term goal is to help younger Podiatrists avoid the same mistakes he made when first starting out in business, and to guide them to sustainable long-term success.

Here's the simple truth: every successful small business owner thinks and behaves differently to every unsuccessful small business owner, and how you think and behave will have a direct influence on what you will or won't achieve in life, both personally and professionally.

The Health Services Executive (HSETM): Tools for Leading Long-Term Care and Senior Living Organizations serves as a contemporary and comprehensive resource that addresses each of the core professional domains of practice and leadership essentials for long-term care administration students and professionals. With sections dedicated to postacute care settings, operations, leadership and management, this textbook covers information pertinent to the spectrum of senior living service lines – from inpatient rehab facilities, long-term acute care hospitals, nursing homes, assisted living, and residential care communities to home- and community-based services. It is a practical reference for both undergraduate and graduate students preparing to enter the field of long-term care administration and leadership, as well as for professionals transitioning to another line of postacute service. The textbook begins with a thorough history of the field, including the development of senior services in the United States. Section I then describes the components of customer care, supports, and services before transitioning into Section II, which addresses operations, including the core practice domains of effectively managing human resources, finances, and the environment. Section III offers a framework for leadership, covering strategic thinking and innovation, marketing and public relations, critical thinking and operation practice, customer service, and personal development. Case problems, discussion questions, leadership roles, high-impact practices, key points, and National Association of Long Term Care Administrator Boards (NAB) domain competencies conclude each chapter. Written by two highly experienced long-term care administrators, this textbook is intended for those preparing for the examinations administered by the NAB for the HSETM qualification or licensure for individual lines of service, such as for Nursing Home Administration (NHA), Residential Care and Assisted Living (RC/AL) and Home- and Community-Based Services (HCBS). Key Features: Provides best practices for leadership and management across the continuum of long-term care and senior living services Covers all five NAB professional practice domains: Customer Care, Supports and Services; Human Resources; Finance; Environment; and Leadership and Management Includes case problems, discussion questions, and more to foster critical thinking and decision-making skills Offers coverage of the most unique differences among service lines that are part of the HSETM initiative Weaves insightful quotes from industry leaders throughout chapters for practical tips and words of wisdom
