that will “ stimulate wonder and imagination ” (Booklist, starred review). Imagine a world where the sky becomes the Earth; where a waterfall freefalls to become dancing women; where you can cut mountains out of curtains, and ships sail into the sky. This amazing world is what Rob Gonsalves has created. His vision inspires and astounds—and he wants to share that vision with you. With stunning illustrations that stretch the limits of the imagination, this fourth installment in the Imagine a... series explores a world that is boundless and beautiful, inviting you to imagine a world of possibilities—to imagine this world.

From the world ’ s greatest master illusion artists, including Guido Moretti, Tracy Lee Stum, Vladimir Kush, Rob Gonsalves and Bev Doolittle, to Istvan Orosz, John Langdon, Scott Kim, Oscar Reutersvard, and Donald "Rusty" Rust, THE ART OF DECEPTION is not just an ordinary collection of optical illusions. Author Brad Honeycutt has collected 200 of the finest deceptive images ever assembled that will excite both novices and long-time fans of illusion art. The spectrum spans from classic optical illusions to art that is "made real from the impossible." This collection includes famous paintings, stunning photographs, and computer enhanced visual eye treats that will make your mind's eye blink twice . . . and then smile. Every image was handpicked to feature a specific segment of the illusory spectrum that has one sole purpose--to illustrate the best artistic presentation possible. With commentary by the artists about their vision and techniques, this is an extraordinary book on the art and science of the illusion.

Imagine a night when you can ride your bike right up the stairs to your bed. Imagine a night when your toy train

rumbles on its tracks out of your room and roars back in, full sized, ready for you to hop on for a nighttime adventure. Imagine a night when a farmer plays a lullaby on his fiddle, and his field of sunflowers begins to dip and sway to the rhythm. Imagine a night when ordinary objects magically become extraordinary...a night when it is possible to believe the impossible. With the intrigue of an Escher drawing and the richness of a Chris Van Allsburg painting, renowned Canadian artist Rob Gonsalves depicts that delicious time between sleep and wakefulness, creating a breathtaking, visual exploration of imagination and possibility that will encourage both children and adults to think past the boundaries of everyday life, and see the possibilities beyond.

Imagine a day when your swing swings you higher than the highest treetops. Imagine a day when you can ride your bike up a path of falling leaves into the very tree they are falling from. Imagine a day when you release a handful of blue balloons into a cloudy, gray sky to create a postcard-perfect day. Imagine a day when the ordinary becomes the extraordinary...a day when anything is possible. Imagine a Day is the companion book to the critically acclaimed Imagine a Night, which School Library Journal declared "a fascinating foray into the imagination." Renowned Canadian artist Rob Gonsalves once again stretches the limits of visual exploration with his breathtaking paintings and encourages parents and children alike to look beyond the limits of the everyday world and imagine.

interesting pictures selected by the artist himself. It includes Escher's commentaries on his work, which make his startling visual effects more easy to interpret. The book also features Escher's own account of his evolution as an artist. An authentic source book of high significance, it offers the best introduction to the fantastic universe of the grand master of illusion.
