What reader's say about Michelle Fox's werewolves: "I love how well the characters are developed and rounded out - I feel like I know about these characters before they jump in the sack - which for me is a HUGE deal!" "Fox adeptly weaves several enchanting love scenes into her romance framework. Best of all, they actually add to the story." "This is the third shifter story I've read from this author, and I love the edge of humor, the way she introduces the problems of the pack, and the wolfish behavior that sneaks into the human interaction." Little known fact about being a werewolf: There are always wolves at your door and some of them are up to no good. Chloe Weiss' dreams have finally come true: She's a null no more, her wolf has finally come. She's now a full member of her pack in the remote Appalachian 'weretown' of Hunstville. Even better, she's mated to the pack's next alpha, Jackson Swift. However, now that she's on the other side of her happy ending, things aren't quite as rosy as she'd expected. The women of her pack resent her status as alpha's mate and suddenly there are rumors that Chloe is an Omega, a werewolf so weak they are banned from ever mating. Worse, an old friend of Jackson's blows into town full of disapproval...and competition. It seems no one likes Chloe except Jackson. Then women start disappearing, violently kidnapped

In Book 1 of the Wolf Pack series: Kit has avoided her parents increasing pressure to marry for years. Granted, her shifter parents refer to it as mating, but Kit isn't one to split hairs over semantics when the results will be the same. She'll lose her freedom and being under the control of an Alpha male doesn't appeal to her in the least. Kit knows that mating will also bring on her magical powers and what many would consider a gift comes with some hefty baggage. After seeing the burden those powers have been to her mother and grandmother, Kit is in no hurry to join in the never-ending battle between good and evil. But an evening of dancing with a friend ends Kit's hope of avoiding her destiny. Yacht party. Sounds good right? Nobody told me that Pirates were a possibility. Nobody warned me that even my saviors could be more dangerous than my captors. But dangerous in a different way. Like, not in a life-threatening way. But, in a way that threatens my understanding of what is real or even possible. I feel a strong attraction to each of my rescuers like I never have before. I only wish I knew who I would choose if I had to. And that's the thing, I'm not totally sure they're expecting me to choose, or if they even want me to. After going through what I just did. Welcome to Rabbit Creek....City girl Elizabeth Reynolds hopes to find peace and contentment in the small Appalachian town of Rabbit Creek. Okay, so the bucolic cottage she's rented turns out to be a dilapidated cabin without phone service, but the people she meets are wonderful. Friendly and down to earth, they welcome her with open arms. It's just like moving to Mayberry... if Andy and Aunt Bea were wolves. Only an outsider would call them werewolves. They're wolwers, a community of man/beasts that have lived in these hills since their ancestors emigrated from Scotland three hundred years ago. And that gorgeous Chief of Police, Marshall Goodman, the guy she met while covered in mud and wearing granny underpants? The one who

sends her heart spinning? He's their Alpha and his pack is under attack from outside forces. Elizabeth, being a sane and reasonable woman, wants no part of any of this, but if she refuses to risk her life and her heart, the people she's grown to care about will lose everything and she'll lose the one man she was born to love.

Clover: The man may be my brother's new second in command, but to me, Joshua's just the bossy pain in the ass who's way too good at getting under my skin. To be fair, I suppose my less-than-sunny disposition when he's around can take some of the credit for provoking him. I can't help it. He's the pack's alpha cat—a hulking, hot mountain lion shifter, and thus the bane of my existence on principle. Cats and I, we don't mix. A pride of lions from California had slaughtered my parents when I was a kid, making sport of hunting me nearly to death as well. Then not too long ago, a psycho she-cat shot me with a poisoned dart. Seriously. Give me a skunk over a cat any day. Joshua: I'm well aware of how easily I can rile up my boss's little sister. Who can blame me? The feisty she-wolf is like my own personal catnip. With claws. So when a rare second heat sends Clover running for the hills—my hills—there's no way in hell I'm going to let the opportunity to finally claim my mate pass me by. Her head may have her convinced she can't trust me, but the rest of her sure isn't listening any

Eighteen-year-old Trinity is unlike any other werewolf in her pack. For one, there were unusual circumstances surrounding her birth, for another, she is the only pack member to never shift into a wolf form. So now she doesn't quite belong anywhere. Not quite human and not quite wolf. She thought she would be able to live her life how she wanted when she had turned eighteen. Go to college, make some friends, have some fun. But what is she to do when the dangerously sexy Alpha literally falls right into her lap? "I am not human, and I am not a wolf. I don't belong anywhere..." "...we both know that no one is going to mate with me, and even if they did, they would just reject me anyway." What is the sexy, brooding Alpha going to do? The elders are making him hold these ridiculous parties to search for a mate. He doesn't want a mate, but he knows he needs a mate to finish the Alpha Circle. Without a mate, a

Luna for the pack, his people would suffer. And what is he going to do when he stumbles across the girl that fate has chosen for him and he finds out she has no wolf? "This cannot be!" I roared. "There is no way that I can mate with a girl that does not even have a wolf. She will be too weak. She will be inferior. She will not be strong enough to be a Luna." "I simply could not accept her as my mate. Not fully. It wasn't safe for her. She would get herself killed. And she would bring my pack down with her." When these two meet, sparks will surely fly. But will it be from passion, or their constant fighting? Neither of them wanted a mate. Neither of them wants the mate that fate chose for them. And neither of them can make that mate bond go away. What are they going to do now that they're literally stuck with each other?

I knew that Ava Bradley was mine from the moment I saw her. Fate gave me a smart and kind soul mate with a body that left me panting. But she was human. I had to play this carefully. Humans didn't know that wolf shifters existed, or what it meant to be mated to one. The last thing I wanted was to scare off my timid little mate. But my pack was in trouble. We had a history of losing good people to the Hunters that were determined to exterminate my kind. As Alpha, I had to keep my pack safe. As a shifter in love, I had to make sure that Ava didn't get caught in the crossfire. She had a dark past
