Translated from Japanese, the true, inside story of the development of the world's favourite roadster, actually written by the car's engineers and designers. A unique, behind-the-scenes look at how the MX-5 Miata came to be, and a facinating insight to modern car development & techniques.

Documents specifications, repairs, and servicing procedures for individual models, and provides information on component repair and overhaul

Models covered: all front-wheel drive Laser models with petrol engines, September 1981 through 1989. Laser series KA, KB, KC & KE, 323 front-wheel drive models. Does not cover diesel, turbocharged or 4WD.

The economies of South Korea and Taiwan in the second half of the twentieth century are to scholars of economic development what the economy of Britain in the late eighteenth and early nineteenth centuries is to economic historians. This book, first published in 2006, is a collaboration between a leading trade economist and a leading economic sociologist specializing in East Asia, and offers an explanation of the development paths of post-World War II Korea and Taiwan. The

ambitions of the authors go beyond this, however. They use these cases to reshape the way economists, sociologists, and political scientists will think about economic organization in the future. They offer nothing less than a theory of, and extended evidence for, how capitalist economies become organized. One of the principal empirical findings is that a primary cause for the industrialization of East Asia is the retail revolution in the United States and the demand-responsiveness of Asian manufacturers.
