Institution of Mechanical Engineers - IMechE

Any person who desires to be registered as a Professional Engineering Technician, or as a candidate engineering technician may lodge an appropriate application with ECSA. The application must be complete in all respects to obviate unnecessary delays in the processing of the application. Applications from persons holding accredited qualifications, including those already registered as candidate engineering technicians, will not be subjected to a detailed evaluation of their qualifications.

Register - Professional Engineering Technician

An engineering technician is primarily trained in the skills and techniques related to a specific branch of engineering, with a practical understanding of the relevant engineering concepts. Engineering technicians often assist engineers and technologists in projects relating to research and development, or focus on post-development activities like implementation or operation. An engineering technician is between a skilled craft worker and a technologist. The Dublin Accord was signed in 2002 as a
