**THE OUTPOST THE METRO 2033 SAGA COMES TO AMERICA** From the mastermind of the world-famous post-apocalyptic METRO saga Dmitry Glukhovsky - now a new story set in America! It's been decades since the Last War ravaged the entire Earth, devastating cities, wiping out entire nations and decimating the mankind. While on the other end of the planet the few survivors are hiding in the tunnels of subway, back in America it's the age of Frontier again. Those who made it from nuclear flames of enemies' bombs and survived pandemics that followed have found their only refuge in the Outposts - fortresses constructed on America's only remaining road - the railway. The Outpost of Plattsburgh sits on the frontier of great wastelands, on the very edge of darkness. And out of this darkness, anything can come, lured by the light and the human warmth... Janis is just seventeen. All she dreams about is to hop onboard of an ironclad train and run away to the flourishing South - and start a new life there. She's free to go - and yet she's tied to the Outpost forever...

The basis of two bestselling computer games Metro 2033 and Metro Last Light, the Metro books have put Dmitry Glukhovsky in the vanguard of Russian speculative fiction alongside the creator of Night Watch, Sergei Lukyanenko. A year after the events of METRO 2033 the last few survivors of the apocalypse, surrounded by mutants and monsters, face a terrifying new danger as they hang on for survival in the tunnels of the Moscow Metro. Featuring blistering action, vivid and tough characters, claustrophobic tension and dark satire the Metro books have become bestsellers across Europe.

World War Three wiped out the humankind. The planet is empty now. Huge cities became dust and ashes. Railroads are being eaten by rust. Abandoned satellites hang lonely on the orbit. Radio is mute on all the frequencies. The only survivors of the last war were those who made it into the gates of the Metro, the subway system of Moscow city. It's there, hundreds of feet below the ground, in the vaults of what was constructed as the world's largest air-raids shelter that people try to outlive the end of the days. It's there that they created a new world for themselves. The stations of Metro became city-states, and its citizens, torn apart by religions and ideologies are fighting for the now scarce commodities: air, water, and space. This tiny underground world can only remind humans of an immense world they once were the masters of. It's been twenty years past Doomsday, and yet the survivors refuse to give up. The most stubborn of them keep cherishing a dream: when the radiation level from nuclear bombings subsides, they will be able to return to the surface and have the life their parents once had. But the most stubborn of the stubborn continues to search for other survivors in this huge emptiness that once was called Earth. His name is Artyom. He would give anything to lead his own people from the underground onto the surface. And he will. \* \* \* METRO 2035 continues and terminates the story of Artyom, the hero of the original Metro 2033 book and the Metro video games. Millions of readers across the world have been waiting for this novel for the long ten years. For those who have been following Artyom's adventures from the very beginning, Metro 2035 will deliver the concluding powerful part of the saga, with the ultimate part of the puzzle that can't be found anywhere else. For the new readers, Metro 2035 will become an excellent introduction into this unique fiction universe that has millions of fans across the world. \* \* \* Dmitry Glukhovsky's METRO novels have already sold millions of copies in 37 languages. They have also become a basis of cult video games 'Metro 2033' and 'Metro Last Light', and the film rights were optioned by a Hollywood studio. \* \* \* Behind the tense plot and the dark ambience of Metro 2035, there's yet another level: that of social dystopia and political satire. Metro metaphorically paints a pitiless picture of today's Russia, that is being overcast again by the dark shadows of its gruesome past. Do Russians need freedom? Do they want a war? Can they survive without an enemy? Who's to blame and can anything be done about it? Eternal questions. Fresh answers.

The Morningstar virus. Those infected suffer delirium, fever, violent behaviour ... and a hundred per cent mortality rate. But that's not the worst of it. The victims return from the dead to walk the earth. And when a massive military operation fails to contain the plague of the living dead, it escalates into a worldwide pandemic. On one side of the world, thousands of miles from home, a battle-hardened general surveys the remnants of his command: a young medic, a veteran photographer, a rash private, and dozens of refugees -- all of them his responsibility. Meanwhile in the United States, an army colonel discovers the darker side of Morningstar and collaborates with a well-known journalist to leak the information to the public...

In a nightmarish, post-holocaust world, an ancient evil roams a devastated America, gathering the forces of human greed and madness, searching for a child named Swan who possesses the gift of life.

Dark Horse Books and Square Enix present a faithful localization of the original Japanese volume, offered in English for the first time! Whether you're a first-time player or looking to take your game to one hundred percent completion, this guide book is not to be missed!

The forces of Light and Darkness have co-existed in a delicate balance for hundreds of years ... until now. Even as the Night Watch polices the Dark Others--among them vampires, witches and shape-shifters--a chain of mysterious events triggers a dreaded, age-old prophecy: An immortal with special powers will come to switch sides, shattering the balance and unleashing an apocalyptic war unlike any the world has ever known.
