Bats feature in many myths, legends and folklore from diverse cultures around the world, and are often associated with darkness, death and the supernatural. Unquestionably, they are strange creatures, appearing as half animal and half bird, like something from a nightmare world. From this duality and strangeness evolved a reputation of duplicity and threat, appearing as neither one thing nor ...

One of the creatures that we often see depicted in movie myths and legends is the werewolf. This creature is, of course, affiliated with the full moon. Typically it is believed that these are creatures that have human form but that morph into wolf-like (typically violent) creatures when the full moon is in the sky.

So. What I'm going to do in this A-Z is look at fairytales, folktales, and myths from a different direction (and a couple of different angles): I'm going to look at stories that are either western in origin that have been reimaged through other lenses, stories that were coopted and have now been retold by the people to whom they originally belonged, or upcoming stories about which I ...
