The NAD C370 allows for the connection of multiple power amplifiers. If you are using a single, external stereo power amplifier, disconnect the links to the MainIn sockets. The C370's internal power amplifier is now disconnected. Use a twin RCA-to-RCA lead to connect to the left and right 'Audio Input' of the Power amp to the PRE OUT 1 sockets.

C 320BEE and C 370. The PowerDrive topology allows the C 372 to deliver maximum performance under virtually any circumstance, independent of the loudspeakers it is driving. The circuitry automatically senses the impedance characteristics of the loudspeaker and will then adjust its power supply settings to best cope with that specific load. PowerDrive topology is a practical approach to enable ...

This NAD C370 is a powerhouse of an amp - one of the best things I've heard for the price ever. NAD, as always, has come through with a great new amp. For those who don't know, NAD has combined their C160 Preamp and their C270 Power Amp in one box. Presto -- The result is one integrated amp which blows the competition away. I've had the amp for a little over a month now. It is combined with a ...

[editor.notactivelylooking.com](http://editor.notactivelylooking.com)

A very common problem with NAD amplifiers (here: C370) is that it becomes very slow to start after some years (10+). The time between power-on and deactivation of the protection increases to several minutes! And why is this happening? In this post we will go through how we repaired a challenge like this on a 16 year old NAD C370 amplifier.
