 Just thought it would ask the community about the do's and don't's in regards to prep for the histology NBME I have in less than a week. So far I have been basing my revision on BRS, Lippincott Histology and some of Pretest Histology. However I find that the Pretest questions are a whole lot more difficult than Lippincott - and this stresses me out.

 Compared to the individual exams you've taken prior to the NBME, the NBME is very "topical" and only a small fraction of the questions will be really detailed. This kinda holds true for most NBME exams. I'm pretty sure all I did was go through the BRS review questions for each section as well as the cumulative exam at the end, and that was it.

How did you all study for the NBME anatomy shelf—
 For the NBME Pathology Shelf, I had four days off to study. The Robbins question book is roughly 400 pages. I was able to do 100 pages a day and then follow it up with a few tables in the First Aid (important cytokines, for example), and that was 100% sufficient for Shelf purposes.

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Be prepared for your courses and board exams with BRS Cell Biology and Histology! Acclaimed for its easy-to-read, easy-to-scan outline format, this edition saves time and boosts test-taking confidence. This concise volume distills cell biology and histology facts and concepts commonly covered on course and board exams in a portable, quick-reference format ideal for in-class learning or on-the-go review. Dynamic micrographs, illustrations, full-color tables, and more than 320 board-style multiple-choice review questions with answers reinforce understanding and ensure readiness for exams and the challenges of today 's fast-paced clinical practice.

Now reviewed by McGraw-Hill's Medical Student Advisory Committee to ensure simulation of the USMLE test-taking experience and accuracy. Now updated to reflect the USMLE Step 2 exams with greater emphasis on case presentations and diagnostic skills. New editions features approximately 400 new clinical vignettes with 500 accompanying questions With expanded answers reference to leading textbooks or journal articles

This series extracts the most important information on each topic and presents it in a concise, uncluttered fashion to prepare students for the USMLE. High-Yield means exactly that! High-Yield Embryology, Fifth Edition provides a concentrated, efficient review of embryology material tested on the USMLE Step 1. Concepts are presented in a streamlined outline format with tables, diagrams, photos, and radiographs to clarify important material. In response to student feedback, the Fifth Edition features: New and updated figures Additional USMLE-style case studies at the end of each chapter An expanded section on early development

Studying for major medical exams can be a confusing and stressful task. In HOW TO PREPARE FOR THE MEDICAL BOARDS, third-year medical students Adeleke T. Adesina and Farook W. Taha present a useful guide for medical students studying for both the United States Medical Licensing Exam (USMLE) Step 1 and the Comprehensive Osteopathic Medical Licensing Exam (COMLEX) Level 1. Using a system-based learning method, HOW TO PREPARE FOR THE MEDICAL BOARDS provides a plan to study for the major topics tested on the board exams and suggests a unique approach to reading and keeping mental notes. It discusses the use of First Aid for the USMLE Step 1 and question banks in the preparation process. A bonus chapter addresses how to survive medical schools rigorous education requirements and the most efficient ways to maximize education while still enjoying life. Based on personal experience, Adesina and Taha help medical students discover the secrets, learn the rules, and avoid common costly mistakes when preparing for and taking important national medical board examinations. These students have developed a unique stepwise approach to help students score above 95 on their medical boards.

Succeed on the NBME shelf exam and your surgery rotation with Shelf-Life Pediatrics, a brand new pocket-sized question book packed with 500 high-quality questions and answers that align with current NBME content outlines. Shelf-Life Pediatrics is a volume in the new Shelf-Life Series, developed with the needs of third- and fourth-year medical students in mind.

Efficiently prepare for your family medicine rotation and exams! This high-yield review book gives you exactly the help you need to succeed on your family medicine clerkship, the NBME Family Medicine Shelf Exam, and the ambulatory component of the USMLE Step 2 CK. -Focus on what you really need to know with chapters and topics based on the Society of Teachers of Family Medicine National Clerkship Curriculum, as well as content areas of the NBME Family Medicine Shelf Exam. - Succinct outline approach keeps "extra" material to a minimum, focusing on the core content you need to know -Quick Hits" in the margins highlight highly testable topics. -Easy-to-follow algorithms show examples of effective clinical reasoning, particularly for similar complaints. -Includes must-know information on causes, risk factors, history and physical exam, lab studies and radiology, treatment, and complications for the most common diseases and disorders. -Review questions with full explanations at the end of each chapter test your knowledge.

The most efficient, readable, and reasonable option for preparing for the Texas Medical Jurisprudence Examination, a required test for physician licensure in Texas. The goal of this study guide is to hit the sweet spot between concise and terse, between reasonably inclusive and needlessly thorough. This short book is intended to be something that you can read over a few times for a few hours before your test and easily pass for a reasonable price, with enough context to make it informative and professionally meaningful without being a \$200 video course or a 300-page legal treatise. After all, the Texas JP exam isn't Step 1-it's a \$58 pass/fail test!

This study guide contains approximately 400 multiple-choice questions with detailed answer explanations. The book is illustrated with anatomical images, clinical images that portray signs and symptoms, and radiological images including ultrasounds, PET scans, MRIs, CT scans, and X-rays.

High-Yield™ Comprehensive USMLE Step 1 Review is a very concise study tool for the USMLE Step 1 exam. Written by best-selling Board review author Barbara Fadem and a team of expert contributors and experienced review authors, the book provides a high-yield but comprehensive review of the content most likely to be tested on the USMLE. Tables and illustrations throughout the text help summarize difficult concepts. Extremely concise and designed for rapid study, High-Yield™ Comprehensive USMLE Step 1 Review is perfect for last-minute review or a quick brush-up anytime.

Lippincott's Illustrated Q&A Review of Histology is a resource for students engaged in histology course review and test preparation for the USMLE Step 1 and COMLEX. It contains more than 1,000 USMLE-style and content recall questions with images for approximately 40% of the questions.
