Sciences and discussing the expert  
medicolegal report.

Many of the trials taking place today are unregistered and unpublished, meaning that the information that they generate remains invisible to both the

# Read Free Nca Review Of The Clinical Laboratory Sciences

Scientific community and the public. This undermines public trust, slowing the pace of medical advancement and potentially putting patients at risk. All trials conducted on NHS treatments- and all other trials receiving public funding-should be

# Read Free Nca Review Of The Clinical Laboratory

prospectively registered and their results published in a scientific journal. While the focus should be on implementing this change for future trials, the Government must also do what it can to ensure that historic trials are registered and published,

# Read Free Nca Review Of The Clinical Laboratory

particularly where they have been publically funded. The Government should also take steps to facilitate greater sharing of the raw data generated during a trial in a responsible and controlled way, with the knowledge and consent of

# Read Free Nca Review Of The Clinical Laboratory

patients. The report also draws attention to the recent fall in the number of trials taking place in the UK. It finds that the need for multiple governance approvals from participating NHS organisations remained the biggest barrier to setting up a UK

# Read Free Nca Review Of The Clinical Laboratory

Sciences trial, but that lack of public awareness was also a key issue. Recruiting participants can also be a challenge. The report calls on the Government to take its recommendations into account in ongoing discussions regarding the revision of European clinical trials

# Read Free Nca Review Of The Clinical Laboratory

legislation and in its response to the European Medicines Agency's consultation on the release of clinical trial data, which closes at the end of this month
