An Iranian scholar chronicles the life and legacy of the last Shah of Iran, including his role in the creation of the modern Islamic republic.

"Amir Abbas Hoveyda was a central figure in the historic struggle between modernity and tradition in Iran-a struggle pitting Western cosmopolitanism against Persian isolationism, secularism against religious fundamentalism and ultimately civil society and democracy against authoritarianism...In telling the story of Hoveyda's life, the author has not only laid bare the development of Iranian society during a pivotal period (1919-1978) but has also unearthed important new materials on U.S.-Iranian relations..." -- p. [4]

This epic biography, a gripping insider's account, is a long-overdue chronicle of the life and times of Mohammad Reza Shah, who ruled from 1941 to 1979 as the last Iranian monarch. Gholam Reza Afkhami uses his unparalleled access to a large number of individuals—including high-ranking figures in the shah's regime, members of his family, and members of the opposition—to depict the unfolding of the shah's life against the forces and events that shaped the development of modern Iran. The first major biography of the Shah in twenty-five years, this richly detailed account provides a radically new perspective on key events in Iranian history, including the 1979 revolution, U.S.-Iran relations, and Iran's nuclear program. It also sheds new light on what now drives political and cultural currents in a country at the heart of today's most perplexing geopolitical dilemmas.

As the 25th anniversary of the Islamic Revolution approached, Abbas Milani realized that very little, if any, attention had been given to the entire prerevolutionary generation. Political upheavals and a tradition of neglecting the history of past regimes have resulted in a cultural memory loss, erasing the contributions of a generation of individuals. Eminent Persians seeks to rectify that loss. Milani’s groundbreaking portrait of modern Iran reveals the country’s rich history through the lives of the men and women who forged it. Consisting of 150 profiles of the most important innovators in Iran between World War II and the Islamic Revolution, the book includes politicians, entrepreneurs, poets, artists, and thinkers who brought Iran into the modern era with brilliant success and sometimes terrible consequences. The biographies and essays weave a richly textured tapestry of lives, ideas, and events that reveals the true story of these decades in the life of a nation. The two volumes are divided into sections on politics, economics, and culture, each accompanied by an introductory essay that places the individual stories in their broader historical context. Drawn from interviews, extensive archival material, and private correspondence, Eminent Persians is a treasure trove of original documents, many appearing in print for the first time. Detailed sketches of personalities and personal foibles offer a compelling and highly readable account of this remarkable period of history on a human scale.

The authors trace the emergence of Ataturk and Reza Shah through the constitutional revolutions in Iran and the Ottoman Empire, which led to the introduction of European social models, the establishment of dictatorship and of secularist reforms. This produced in both Turkey and Iran highly authoritarian, nationalist, and quasi-westernised states, where the personality cult of the leader defined the politics of each country."

In this detailed study of modern Iran, Yadullah Shahibzadeh examines changes in people's understanding of politics and democracy. The book aims to overcome the shortcomings of traditional historiography by challenging the monopoly of intellectuals' perspectives and demonstrating the intellectual and political agency of the ordinary people.

Though his monarchy was toppled in 1979 and he died in 1980, the life of Mohammad-Reza Shah Pahlevi, the last Shah of Iran, continues to resonate today. Here, internationally respected author Abbas Milani gives us the definitive biography, more than ten years in the making, of the monarch who shaped Iran's modern age and with it the contemporary politics of the Middle East. The Shah's was a life filled with contradiction—as a social reformer he built schools, increased equality for women, and greatly reduced the power of the Shia clergy. He made Iran a global power, courting Western leaders from Churchill to Carter, and nationalized his country's many natural resources. But he was deeply conflicted and insecure in his powerful role. Intolerant of political dissent, he was eventually overthrown by the very people whose loyalty he so desperately sought. This comprehensive and gripping account shows us how Iran went from politically moderate monarchy to totalitarian Islamic republic. Milani reveals the complex and sweeping road that would bring the U.S. and Iran to where they are today.

Culture and Cultural Politics Under Reza Shah presents a collection of innovative research on the interaction of culture and politics accompanying the vigorous modernization programme of the first Pahlavi ruler. Examining a broad spectrum of this multifaceted interaction it makes an important contribution to the cultural history of the 1920s and 1930s in Iran, when, under the rule of Reza Shah Pahlavi, dramatic changes took place inside Iranian society. With special reference to the practical implementation of specific reform endeavours, the various contributions critically analyze different facets of the relationship between cultural politics, individual reformers and the everyday life of modernist Iranians. Interpreting culture in its broadest sense, this book brings together contributions from different disciplines such as literary history, social history, ethnomusicology, art history, and Middle Eastern politics. In this way, it combines for the first time the cultural history of Iran’s modernity with the politics of the Reza Shah period. Challenging a limited understanding of authoritarian rule under Reza Shah, this book is a useful contribution to existing literature for students and scholars of Middle Eastern History, Iranian History and Iranian Culture.

This critical review of the history of America's relations with Iran shows how little of the two countries' long and complicated relationship is reflected in the foundational axioms of the "Great Satan" myth. The author explains why meaningful and equitable relations can begin only after the two nations have arrived at a common, critical, and accurate reading of the past.

This interrogates the racist construction of Aria and Aryanism in an Iranian context, arguing that these concepts gave the Indo-European speaking Persian ethnic group an advantage over Iran's non-Persian nationalities and communities.
