This manual has been written with the Law Enforcement Firearms Instructor in mind. It is an attempt to save the instructor time by furnishing already prepared outlines that cover most of the subject currently taught by and to law enforcement personnel. The purpose of the manual is twofold: First, it can be used by current firearms instructors as a handy reference guide and also as a way of keeping all of the firearms outlines in one simple format. By preparing the manual in this fashion, all of an instructor's outlines are easily accessible should an instructor's class be challenged by the legal system. Secondly, this manual can be used as the text for firearms instructor initial certification classes. Once the new instructor completes the basic certification course, he or she will have a complete set of outlines that can be used for teaching their classes. The first four outlines in this manual (The Role of the Firearms Instructor, Safety Responsibilities, Record Keeping, and Discipline) are generally used during instructor development classes. The rest of the outlines, while also used in instructor development classes, are also appropriate for basic recruit classes as well as classes that are designed for in-service personnel. The Appendix contains material that can be used as class handouts or made into overheads for class presentations. Some of the courses can be used for general firearms qualification, while others are used for training a specific skill, such as linear and lateral movement or multiple attackers. The manual has been written to take the pain out of the "office work" part of being a firearms instructor and to give the instructor more time to teach.

A young black man's funny and searing quest to learn to shoot, and a fascinating odyssey into race, guns, and self-protection in America. The most RJ Young knew about guns was that they could get him killed. Until, recently married to a white woman and in desperate need of a way to relate to his gun-loving father-in-law, Young does the unimaginable: he accepts Charles's gift of a Glock. Despite, or because of, the racial rage and fear he experiences among white gun owners ("Ain't you supposed to be shooting a basketball?"), Young determines to get good, really good, with a gun. Let It Bang is the compelling story of the author's unexpected obsession—he eventually becomes an NRA-certified pistol instructor—and of his deep dive into the heart of America's gun culture: what he sees as the domino effect of white fear, white violence, black fear, rinse, repeat. Young's original reporting on shadow industries like US Law Shield, which insures and defends people who report having shot someone in self-defense, and on the newly formed National African American Gun Association, gives powerful insight into the dynamic. Through indelible profiles, Young brings us up to the current rocketing rise in gun ownership among black Americans, most notably women. Let It Bang is an original look at American gun culture from the inside and the other side—and, most movingly, the story of a young black man's hard-won nonviolent path to self-protection. "We need more books like this: personal, emotional meditations on gun ownership...showing us all the ways in which guns take on meaning for people, and what happens when those meanings collide."—Pacific Standard
