Written in cool and caustic prose, On Photography consists of seven meditations on the medium's ethics, social uses, and history.

On Photography by Susan Sontag - Goodreads

On Photography 3 a narrowly selective interpretation, a photograph can be treated as a narrowly selective transparency. But despite the presumption of veracity that gives all photographs authority, interest, seductiveness, the work that photographers do is no generic exception to the usually shady commerce between art and truth.

"Photography, which has so many narcissistic uses, it also a powerful instrument for depersonalizing our relation to the world." This statement is emblematic of the author's attitude throughout her dazzling but ultimately deflating analysis of photography. Sontag's intellect is unquestionably clear-eyed and sharp, but her consistent comparisons of photography to consumption, theft, and even ...

Images which idealize (like most fashion and animal photography) are no less aggressive than work which makes a virtue of plainness (like class pictures, still lifes of the bleaker sort, and mug shots). There is an aggression implicit in every use of the camera. This is as evident in the 1840s and 1850s, photography's glorious first two decades, as in all the succeeding decades, during which ...
