The term originated in the 1980s. Originalism is an umbrella term for interpretative methods that hold to the "fixation thesis", the notion that an utterance's semantic content is fixed at the time it is uttered. Originalists seek one of two alternative sources of meaning: The original intent theory, which holds that interpretation of a written constitution is consistent with what was meant by those who drafted and ratified it. This is currently a minority view among originalists. Alfred Avins a

The Second Amendment: The Framers Intentions

Original intent is a theory in law concerning constitutional and statutory interpretation. It is frequently used as a synonym for originalism . [1] while original intent is indeed one theory in the originalist family, it has some salient differences which has led originalists from more predominant schools of thought such as original meaning to distinguish original intent as much as legal realists do.

Original intent - Wikipedia

The term original intent refers to the notion that the judiciary should interpret the Constitution (including its amendments) in accordance with the understanding of its framers. The courts' commitment to original intent is somewhat tested, however, by the reality that the framers' intentions are not always easy to identify.
