Who is The Stig? Where did he come from? Why does he never speak? To answer these questions, award-winning biographer Simon du Beaumarche spent a year chasing The Stig and talking to those closest to him, including Jeremy Clarkson, Richard Hammond, James May and leading figures from Formula 1, music, movies and the military. What he discovered is an explosive story of intrigue, influence and a sensational conspiracy that seeks to hide the truth about one of the 21st century's greatest icons. Transformation in Life and Card Reading, is a beautiful book of diverse story, imagery, and practical magic. Two books in one, Part One describes the author's own early journey of struggle, healing, and self discovery intertwined with the fairytale like account of what ultimately became her calling as an "oracle." Part Two details groundbreaking transformational techniques that can be applied to any method of card reading, any type of cards. It is described by the author as, "pure undiluted BOOTLEG - unlike any other book or method of card reading..." She asserts that card reading is a perfect metaphor for life, and "We can have the life of our dreams using card reading techniques." A rare gem.

Critic Stephen Hunter Comes A Brilliant, Freewheeling, And Witty Look At The Movies. Evanston, Illinois, was an idyllic 1950s paradise with stately homes, a beautiful lake, a world-class university, two premier movie houses, and one very seedy movie theater -- the Valencia. This was the site of Washington Post film critic Stephen Hunter's misspent youth. Instead of going to school, picking up girls, or tossing a football, Hunter could be found sitting in the fifteenth row, right-hand aisle seat of the Valencia, sating himself on one B-list movie after another. The Valencia had a sticky floor, smelly bathrooms, ancient popcorn, and a screen set in a hideously tacky papier-mache castle wall. It was also the only place in town to see westerns, sci-fi pictures, cops 'n' robbers flicks, slapstick comedy,

and Godzilla. In Now Playing at the Valencia, the author of such bestselling novels as Havana and Pale Horse Coming has compiled his favorite movie reviews written between 1997 and 2003, bringing to the discussion the passionate feelings for cinema he discovered in the '50s, a time when genres were forming, mesmerizing stars played unforgettable characters, and enduring classics were made. While filmmaking has changed tremendously since Hunter first frequented the Valencia, the view from the fifteenth row, and the thrill of down and dirty entertainment, has remained the same.

Exposing and exploring the sinuous undercurrents of violence, anguish and love, A.L. Kennedy examines the nature of the individual, both in

isolation and society, as characters define and deny their chosen identities. While showing us the unlikeliness of intimacy and the impossibility of communication, Kennedy also reveals the subversive liberation of impotence, the humour of discomfort as human beings chafe together, the crazed claustrophobia of the family and the wildly funny results of an eccentricity unleashed.

Getting back to basic truths that we have lost sight of through no fault of my own. A humorous collection of newspaper columns including "I Don't Eat Dirt Personally," "How to Walk in New York," "Filofax Fever," and other reflections on American life.

Object-Oriented Programming and Java presents two important topics in contemporary software development: object-oriented programming and Java. This book takes a different teaching approach from most available literature, it begins with the description of real-world object interaction scenarios and explains how they can be translated, represented and executed using object-oriented programming paradigm. Principally, Java is an object-oriented programming language. By establishing a solid foundation in the understanding of object-oriented programming concepts and their applications, the book provides readers with the pre-requisites for
