Pentair's pool heat pumps are dependable, easy to use and budget-friendly. And while both gas pool heaters and pool heat pumps achieve the same goal - warm pool water - they both work differently. Swimming pool heat pumps use electricity to circulate a refrigerant through the unit to extract free heat out of the air. They extract the heat using the thermodynamics of evaporating and re ...

All Pentair heat pumps must be installed in accordance with the local building and installation codes as per the utility or authority having jurisdiction. All local codes take precedence over national codes. In the absence of local codes, refer to the latest edition of the National Electric Code (NEC) in the United States and the Canadian Electric Code (CEC) in Canada for installation.
