Introduces twenty-five of history's leading figures in philosophy, including Buddha, Aristotle, René Descartes, and Friedrich Nietzsche, and how their philosophical ideas continue to matter in today's world.

Kant: A Complete Introduction is designed to give you everything you need to succeed, all in one place. It covers the key areas that students are expected to be confident in, outlining the basics in clear jargon-free English, and then providing added-value features like summaries of key books, and even lists of questions you might be asked in your seminar or exam. The book uses a structure that mirrors many university courses on Freud and psychoanalysis - explaining and contextualizing Kant's theories, which have been among the most influential in Philosophy. The book starts by introducing Kant and his way of thinking and arguing, before looking at how Kant answered three key questions: What can I know? What should I do? What may I hope? In

doing so, Professor Wicks introduces the reader to all of Kant's key work, including *The Critique of Pure Reason*. Teach Yourself titles employ the 'Breakthrough method', which is designed specifically to overcome problems that students face. - Problem: I find it difficult to remember what I've read. Solution: this book includes end-of-chapter questions and summaries, and flashcards of key points available on-line and as apps - Problem: Most books mention important other sources, but I can never find them in time. Solution: this book includes key texts and case studies are summarized, complete with fully referenced quotes ready to use in your essay or exam. - Problem: Lots of introductory books turn out to cover totally different topics than my course. Solution: this book is written by a current university lecturer who understands what students are expected to know.

Philosophy, the “love of wisdom”, is the product of our endless fascination and curiosity about the world - the child of wonder. Through it, we seek to answer the most fundamental of questions: How do we know what we know? Does God exist? What is beauty? How should we live our lives? What am I? In this exhilarating tour, Peter Cave navigates all the main topics of philosophy with verve and clarity. Using witty and whimsical examples, including stoical sofas and Reg, the “regular” human, who just happens to carry his brain in a

rucksack, Cave provides a welcome antidote to the dry textbook while covering everything from political philosophy to points of logic. Interspersed with helpful textboxes and underlining the enduring relevance of philosophy to us all, there is no better introduction for the aspiring sage.

A deluxe special edition of the ancient classic written by the Roman Emperor known as “The Philosopher” Meditations is a series of personal journals written by Marcus Aurelius, Emperor of Rome from 169 to 180 AD. The last of the “Five Good Emperors,” he was the most powerful and influential man in the Western world at the time. Marcus was one of the leaders of Stoicism, a philosophy of personal ethics which sought resilience and virtue through personal action and responsibility. Stoicism, viewed as a foundation of modern self-help, has inspired many personal development and psychotherapy approaches through to the present day. Meditations is perhaps the most important source of our modern understanding of Stoic philosophy. Its twelve books chronicle different stages of Marcus Aurelius’ life and ideas. Although he ruled during the Pax Romana, the age of relative peace and stability throughout the empire, his reign was marked by near-constant military conflict and a devastating plague which killed upwards of five million people. Aurelius’ writings give modern readers an unprecedented look

into the “spiritual exercises” which helped him through his tumultuous life and strengthened his patience, empathy, generosity, self-knowledge and emotional health. The private reflections recorded in the Meditations were never meant to be published, rather they were a source for Marcus’ own guidance and self-improvement, and jotted down by campfires or in military tents on the Roman front. The lessons, insights and perspectives contained within this remarkable work are just as relevant today as they were two millennia ago. This volume: Presents the timeless wisdom of Emperor Marcus Aurelius and his Stoic philosophy, with new research on his life and times Contains valuable insights on topics such as resilience, moderation and emotional control Discusses how to live “in agreement with nature” and abide by strong ethical principles Part of the bestselling Capstone Classics Series edited by Tom Butler-Bowdon, this attractive, high-quality hardcover volume includes: An original Introduction by Marcus Aurelius authority and Stoicism expert Donald Robertson, author of How To Think Like A Roman Emperor. A modernised, up to date version of the classic George Long translation. Meditations: The Philosophy Classic is a volume which will occupy a prominent place in any library for years to come.

mind, Edward Feser explores the questions central to the discipline; such as 'do computers think', and 'what is consciousness'; and gives an account of all the most important and significant attempts that have been made to answer them.

Philosophy for Everyone begins by explaining what philosophy is before exploring the questions and issues at the foundation of this important subject. Key topics in this new edition and their areas of focus include: Moral philosophy - the nature of our moral judgments and reactions, whether they aim at some objective moral truth, or are mere personal or cultural preferences; and the possibility of moral responsibility given the sorts of things that cause behavior; Political philosophy - fundamental questions about the nature of states and their relationship to the citizens within those states Epistemology - what our knowledge of the world and ourselves consists in, and how we come to have it; and whether we should form beliefs by trusting what other people tell us; Philosophy of mind - what it means for something to have a mind, and how minds should be understood and explained; Philosophy of science - foundational conceptual issues in scientific research and practice, such as whether scientific theories are true; and Metaphysics - fundamental questions about the nature of reality, such as whether we have free will, or whether time travel is

The New York Times bestselling author of *The Geography of Bliss* embarks on a rollicking intellectual journey, following in the footsteps of history's greatest thinkers and showing us how each—from Epicurus to Gandhi, Thoreau to Beauvoir—offers practical and spiritual lessons for today's unsettled times. We turn to philosophy for the same reasons we travel: to see the world from a different perspective, to unearth hidden beauty, and to find new ways of being. We want to learn how to embrace wonder. Face regrets. Sustain hope. Eric Weiner combines his twin passions for philosophy and global travel in a pilgrimage that uncovers surprising life lessons from great thinkers around the world, from Rousseau to Nietzsche, Confucius to Simone Weil. Traveling by train (the most thoughtful mode of transport), he journeys thousands of miles, making stops in Athens, Delhi, Wyoming, Coney Island, Frankfurt, and points in between to reconnect with philosophy's original purpose: teaching us how to lead wiser, more meaningful lives. From Socrates and ancient Athens to Simone de Beauvoir and twentieth-century Paris, Weiner's chosen philosophers and places provide important signposts as we navigate today's chaotic times. In *The Socrates Express*, Weiner invites us to voyage alongside him on his life-changing pursuit of wisdom and discovery as he
