What Size Generator Do I Need? This Calculator Will Help You

Generators by Wattage Before choosing a generator, the most important thing to consider is wattage. Smaller appliances, like coffee machines and light bulbs, don't require as many watts as large appliances, such as space heaters and sump pumps. For tailgating, you might only need a generator with as little as 500 to 1,000 watts. To power a whole home, you might need as much power as
