PSYCHOLOGY 115 PRINCIPLES OF BEHAVIORAL NEUROSCIENCE ...

R.R. Miller, in Encyclopedia of Behavioral Neuroscience, 2010. One goal of behavioral neuroscience is to illuminate the neural underpinnings of basic learning and memory as captured in a set of reliable behavioral phenomena. A number of associative models of learning have been proposed to account for these phenomena at an elementary cognitive (i.e., associative) level and to organize these phenomena into a set of fundamental processes that demand a neural basis.
