GX390 - Troubleshooting | Honda
Wondered if anyone has ever come across this problem before. Just acquired a Honda GX390 13HP engine, bought it blind so expected to find something wrong. On pulling the starter rope the engine reaches the compression stroke but won't turn over the compression stroke. If you take the spark plug out the engine will then turn over the compression stroke.

Honda Gx390 Engine Starting Problems
Check the oil level in the pump and the engine before every use. If the engine does not turn at all, pull the spark plug and pour some Marvell miracle oil in the cylinder and let it soak for a day or two. After that, try to pull the cord with the spark plug still removed and the gun trigger depressed. It should rotate easily.

So here's my problem. I own a dewalt pressure washer with a 13 hp Honda GX 390 engine. It was all serviced and worked well last summer. Kept in my garage, seafoam stabilizer in it. It starts but shuts off right away or stays on for 30 or so seconds and then shuts down.. i check the oil and it pours out when the cap is removed.

Honda GX390 engine problems (pressure washer)
Smart electronic fuel injection technology increases fuel efficiency, eliminates the engine choke, and reduces fuel associated carburetor problems. And of course, the reliable Honda GX390 engine is designed for long life and superior performance.
