The edition I needed has now skyrocketed in price due to high demand from my law school. Jesse Dukeminier's trademark wit, passion, and human interest perspective has made Property, now in its Ninth Edition, one of the best—and best loved—casebooks of all time. A unique blend of authority and good humor, you'll find a rich visual design, compelling cases, and timely coverage of contemporary issues. In the Ninth Edition, the authors have created a thoughtful and thorough revision, true to the spirit of the classic Property text. Key Benefits: A new chapter on the Intellectual Property/Property relationship, that gives students a taste of patent law, copyright law, trademark law, and trade secrets law. The chapter highlights the differences and similarities among the legal treatment of real, chattel, and intellectual property. A dynamic, two-color designed casebook that encompasses cases, text, questions, problems, examples and numerous photographs and diagrams. Extended coverage of major recent Supreme Court decisions, including *Murr v. Wisconsin*, *Horne v. Department of Agriculture*, and *Marvin M. Brandt Revocable Trust v. United States*.

Concise Introduction to Property Law is first and foremost a casebook, designed to expose first year law students to the rich heritage of American Property Law through the study of court decisions. Instructors will find many of the familiar cases used in most Property textbooks, as well as many new ones. The notes in all chapters not only point out legal developments and additional cases, but also include substantial detail on the historical and social context in which the principal cases arose. The notes also provide a glimpse into the lives of the parties to the cases, some of whom are famous and many of whom are not. The book also has a definite inter-state comparative law perspective. This is primarily manifested by special attention to cases arising in the state of Hawaii, the one American jurisdiction whose property history departs from the national experience in dramatic ways.

Property: Cases, Problems, and Skills offers a modern, skills-based approach to Property Law, and includes a balance of classic and new cases, tightly-focused skills exercises (including advocacy, drafting, client interviewing/counseling, and negotiation), selected statutory excerpts, chapter review problems (with answers provided in the Appendix for student self-testing), and other pedagogical

features (such as discussion problems raising novel and modern challenges, A Place to Start doctrinal overview boxes, and Reading Guide boxes). The online teacher's manual will provide answers to all questions posed in the text and suggestions for conducting the skills exercises (generally, during a group exercise that takes all or part of a single class session). The two-color text is visually appealing, with judicious use of photographs, text boxes, and pedagogical diagrams. Although the text does not take a hide the ball approach, it prods students to engage with the law's complexity, ambiguity, and nuance.
