"One of my favourite books this year." - The Review Curmudgeon"An absolute gem of a read!" - Bear Mountain BooksBook 2, The Emperor's Mask, is available now!In a city that runs on magic, it takes a man with none to solve an impossible murder.In a world of elves and dwarves and sprites and mages, Tane Carver is a human with no gift but his wits. Which, to be fair, did get him into the world's most prestigious university of magical technology.For a while.Until his lack of magic was discovered. And then it all came crashing down.But when a student is murdered on campus behind unbreakable wards, Tane gets a second chance. Solving an impossible crime should be easy for the man who fooled the university's best mages for years. Except he's not counting on the head constable being an old flame who isn't so fond of him anymore. Or on Kadka, the half-crazy half-orc who insists she's his partner-whether he likes it or not.Not to mention the masked mage who keeps trying to kill him.Now, Tane's survival depends on the one truth that has never failed him. The flaw in all magic that those who have it prefer to ignore: the mage.Outsmart the mage, and you outsmart the spell.And outsmarting mages is what Tane does best.

**NEW YORK TIMES BESTSELLER** - This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal - Financial Times In The Power of Habit, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, The Power of Habit contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author "Sharp, provocative, and useful."-Jim Collins "Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good."-Financial Times "A flat-out great read."-David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity "You'll never look at yourself, your organization, or your world quite the same way."-Daniel H. Pink, bestselling author of Drive and A Whole New Mind "Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change."-The New York Times Book Review

How do we know music? We perform it, we compose it, we sing it in the shower, we cook, sleep and dance to it. Eventually we think and write about it. This book represents the culmination of such shared processes. Each of these essays, written by leading writers on popular music, is analytical in some sense, but none of them treats analysis as an end in itself. The books presents a wide range of genres (rock, dance, TV soundtracks, country, pop, soul, easy listening, Turkish Arabesk) and deals with issues as broad as methodology, modernism, postmodernism, Marxism and communication. It aims to encourage listeners to think more seriously about the 'social' consequences of the music they spend time with and is the first collection of such essays to incorporate contextualisation in this way.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition.We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery.Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people.Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.
