Ankle \u0026amp; Foot Rehabilitation Exercises - John Haylock  
Rehabilitation Of The Foot And

The patient with foot and ankle surgery will undergo rehabilitation to restore the highest level of function. This return to function will be quite variable depending on the many factors discussed in the use of the ICF model. The time frame following the surgery will dictate the level of intensity of the rehabilitation.

## Care and Rehabilitation of the Equine Foot: Amazon.co.uk ...

Loss of a limb produces a permanent disability that can impact a patient's self-image, self-care, and mobility (movement). Rehabilitation of the patient with an amputation begins after surgery during the acute treatment phase. As the patient's condition improves, a more extensive rehabilitation program is often started.
