"Rendezvous in Black,"
first published in 1948,
has got to be one of the
earlier examples and it's
still one of the best. The
story centers on Johnny
Marr (presumably no
relation to The Smiths'

guitarist), a young man whose bride-to-be is killed in a bizarre accident. Marr vows revenge on the five men he holds responsible for his lover's death.

Analyzing literary texts, plays, films and photographs within a transatlantic framework,

Where To Download

this volume explores the inseparable and mutually influential relationship between different forms of national identity in Great Britain and the United States and the construction of masculinity in each country. The contributors take up issues related to how certain kinds of

Where To Download

nationally specific
masculine identifications
are produced, how these
change over time, and
how literature and other
forms of cultural
representation
eventually question and
deconstruct their own
myths of masculinity.
Focusing on the period
from the end of World
War II to the 1980s, the
essays each take up a

Where To Download

topic with particular cultural and historical resonance, whether it is hypermasculinity in early cold war films; the articulation of male anxieties in plays by Arthur Miller, David Mamet and Sam Shepard; the evolution of photographic depictions of masculinity from the 1960s to the 1980s; or the

representations of
masculinity in the fiction
of American and British
writers such as Patricia
Highsmith, Richard
Yates, John Braine,
Martin Amis, Evan S.
Connell, James Dickey,
John Berger, Philip
Roth, Frank Chin, and
Maxine Hong Kingston.
The editors and
contributors make a
case for the importance

Where To Download

of understanding the larger context for the emergence of more pluralistic, culturally differentiated and ultimately transnational masculinities, arguing that it is possible to conceptualize and emphasize difference and commonality simultaneously.
