Renegade The Elysium Chronicles 1
Renegade means someone who rebels against her cause, and I believe that's exactly happened in this book, what a perfect name. Sixteen-year-old Evelyn Winters was raised and trained to be Daughter of People, to rule over the underwater utopia known as Elysium. her life was close to perfect, or at least that's what she believed.

J.A. Souders's haunting debut—Renegade Since the age of three, sixteen-year-old Evelyn Winters has trained to be Daughter of the People in the underwater utopia known as Elysium. Selected from hundreds of children for her ideal genes, all her life she's believed that everything is perfect. Her world. Her people. The Law. But when Gavin Hunter, a Surface Dweller, accidentally stumbles into Elysium's secluded little world, Evelyn comes to a startling realization: Everything she knows is a lie. Her memories have been altered. Her mind and body aren't under her own control. And the person she knows as Mother is a monster. Together with Gavin she plans her escape, only to learn that her own mind is a ticking time bomb...and Mother has one last secret that will destroy them all. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Isolated in a strange new society on the Surface, sixteen-year-old Evie's ever-elusive memories begin to collide with reality, as people and images from her past appear in the most unlikely places, haunting her, provoking her, and making her seem not only strange but dangerous.

In this conclusion to J. A. Souders's thrilling, twist-filled Elysium Chronicles series, Evie Winters and Gavin Hunter return to the isolated, dangerous underwater city that they fought so hard to escape. Back in Elysium at last, Evie has finally found her true self hidden under layers and layers of false memories implanted by the woman she knew as Mother. Thanks to the intervention of her father, she knows the horrible truth about Mother and her insidious plans for the city. With the help of the love of her life, Gavin, and her best friend, Asher St. James, Evie is determined to free her people from the cruel dictatorship of Mother's laws. But how do you free people who don't know they need rescuing? Working with the growing Underground rebellion, Evie tries to remove Mother from her position by force--with disastrous results. As the body count rises, Evie must find a way to save Elysium before Mother destroys them all. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

NEW YORK TIMES BESTSELLER Using a restricted FBI database, genetic researcher Jeanie Ferrami has located identical twins born to different mothers. Frightened by her bizarre discovery, she is determined to discover the truth at any cost—until she finds herself at the center of a scandal that could ruin her career. To extricate herself, Jeannie plunges into a maze of hidden evidence. With growing horror, she uncovers a cynical, far-reaching conspiracy involving disturbing genetic experiments and some of the most powerful men in America—men who will kill to keep their secrets concealed.

As plague ravages the overcrowded Earth, observed by a ruthless lunar people, Cinder, a gifted mechanic and cyborg, becomes involved with handsome Prince Kai and must uncover secrets about her past in order to protect the world in this futuristic take onthe Cinderella story.

The Trek to Elysium Chronicles: Volume 2 is the second book of a three part series that follows a group of intrepid adventurers who are fleeing from The Zombie Apocalypse as well as trying to solve the mystery of what caused it. The group has already learned that they must fight and think as a team if they are going to survive. The group's goal is to reach the largest sanctuary in the United States, a place that has been named Elysium. They have many adventures along the way: rescuing people when they can, fighting renegade government agents and employees from the company that helped get The Zombie Apocalypse going, and destroying mutated monsters. Will they defeat the odds and make it to the safety of Elysium?

New York, Los Angeles, and Washington, D.C., have been abandoned. The Bill of Rights has been revoked, and replaced with the Moral Statutes. There are no more police—instead, there are soldiers. There are no more fines for bad behavior—instead, there are arrests, trials, and maybe worse. People who get arrested usually don't come back. Seventeen-year-old Ember Miller is old enough to remember that things weren't always this way. Living with her rebellious single mother, it's hard for her to forget that people weren't always arrested for reading the wrong books or staying out after dark. It's hard to forget that life in the United States used to be different. Ember has perfected the art of keeping a low profile. She knows how to get the things she needs, like food stamps and hand-me-down clothes, and how to pass the random home inspections by the military. Her life is as close to peaceful as circumstances allow. That is, until her mother is arrested for noncompliance with Article 5 of the Moral Statutes. And one of the arresting officers is none other than Chase Jennings...the only boy Ember has ever loved. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Romance, science fiction, action, and a look at the false assumptions we make about others combine in this light-hearted, fun, and well-conceived science fiction future. Only She Can Save the World. Eighteen-year-old Jarra has a lot to prove. After being awarded one of the military ' s highest honors for her role in a daring rescue attempt, she finds herself—and her Ape status—in the spotlight. Jarra is one of the unlucky few born with an immune system that cannot survive on other planets. Derided as an " ape " —a " throwback " —by the rest of the universe, she is on a mission to prove that Earth Girls are just as good as anyone else. Except now the planet she loves is under threat by what could be humanity ' s first ever alien contact. Jarra ' s bravery—and specialist knowledge—will once again be at the center of the maelstrom, but will the rest of the universe consider Earth worth fighting for? From the Hardcover edition.

THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience! A groundbreaking dive into the role psychedelics have played in the origins of Western civilization, and the real-life quest for the Holy Grail that could shake the Church to its foundations. The most influential religious historian of the 20th century, Huston Smith, once referred to it as the "best-kept secret" in history. Did the Ancient Greeks use drugs to find God? And did the earliest Christians inherit the same, secret tradition? A profound knowledge of visionary plants, herbs and fungi passed from one generation to the next, ever since the Stone Age? There is zero archaeological evidence for the original Eucharist — the sacred wine said to guarantee life after death for those who drink the blood of Jesus. The Holy Grail and its miraculous contents have never been found. In the absence of any hard data, whatever happened at the Last Supper remains an article of faith for today ' s 2.5 billion Christians. In an unprecedented search for answers, The Immortality Key examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet. Religion and science converge to paint a radical picture of Christianity ' s founding event. And after centuries of debate, to solve history ' s greatest puzzle. Before the birth of Jesus, the Ancient Greeks found salvation in their own sacraments. Sacred beverages were routinely consumed as part of the so-called Ancient Mysteries — elaborate rites that led initiates to the brink of death. The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis, where a holy beer unleashed heavenly visions for two thousand years. Others drank the holy wine of Dionysus to become one with the god. In the 1970s, renegade scholars claimed this beer and wine — the original sacraments of Western civilization — were spiked with mind-altering drugs. In recent years, vindication for the disgraced theory has been quietly mounting in the laboratory. The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity. And with a single dose of psilocybin, the psychopharmacologists at Johns Hopkins and NYU are now turning self-proclaimed atheists into instant believers. But the smoking gun remains elusive. If these sacraments survived for thousands of years in our remote prehistory, from the Stone Age to the Ancient Greeks, did they also survive into the age of Jesus? Was the Eucharist of the earliest Christians, in fact, a psychedelic Eucharist? With an unquenchable thirst for evidence, Muraresku takes the reader on his twelve-year global hunt for proof. He tours the ruins of Greece with its government archaeologists. He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine. He unravels the Ancient Greek of the New Testament with the world ' s most controversial priest. He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity ' s oldest monuments. He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English. And with leads from the archaeological chemists at UPenn and MIT, he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity. The Immortality Key reconstructs the suppressed history of women consecrating a forbidden, drugged Eucharist that was later banned by the Church Fathers. Women who were then targeted as witches during the Inquisition, when Europe ' s sacred pharmacology largely disappeared. If the scientists of today have resurrected this technology, then Christianity is in crisis. Unless it returns to its roots. Featuring a Foreword by Graham Hancock, the NYT bestselling author of America Before.

Alastair Reynolds pushes the boundaries of science fiction and " confirms his place among the leaders of the hard-science space-opera renaissance " (Publishers Weekly) in this novel in his Revelation Space universe. Late in the twenty-sixth century, the human race has advanced enough to accidentally trigger the Inhibitors—alien killing machines designed to detect intelligent life and destroy it. The only hope for humanity lies in the recovery of a secret cache of doomsday weapons—and a renegade named Clavain who is determined to find them. But other factions want the weapons for their own purposes—and the weapons themselves have another agenda altogether...
