Audi A4 Engine Mounts - YouTube

The A4 engines use three mounts. The two side mounts are large, rubber and metal parts that use a single, central bolt to connect the engine to the chassis. The third mount is a rubber bumper that attaches to a boss on the bottom of the radiator support panel. This "snout mount" rests in a metal "cup" that is attached to the engine just below the crankshaft pulley. Thus, you have to move the radiator support panel forward into the service position (see the service position article for ...
