Well-known author, psychologist and priest Fr. Benedict Groeschel draws on his own years of personal experiences in dealing with people's problems, tragedies and "darkness" as he offers help and guidance for any Christian troubled or burdened by life. If you are struggling with

fear, anxiety, grief, loss of loved ones, hurt, anger or anything that makes life difficult or the road through it dark, then this book was written for you. Fr. Benedict offers practical suggestions on how to keep going and even grow with the help of God's grace, even when this help seems remote. The Christian response to the problem of evil and suffering began with the cross of Christ. Our answer is inseparable from the cross—from Jesus' own encounter with evil and his triumph over it. In this light, Fr. Benedict recalls some of our most frequently encountered sorrows and griefs: the failure of friends, financial and personal insecurity, the failure of some in the Church, our own inconsistent behaviors and weaknesses, and the death of loved ones. As we examine these painful experiences, he shows that we can find solutions in the Gospel and in the lives of saints, heroes, and very brave ordinary people. "Many guides have been written for people struggling with the mystery of evil. But each generation, each age has its own dark background in front of which the struggle to keep going must be worked out. In every age, men ask 'how am I going to go on to arise from darkness?' It is that which my book will address." —Fr. Benedict Groeschel, CFR

"The Russia that Satter depicts in this brave, engaging book cannot be ignored . . . Required reading for anyone interested in the post-Soviet state" (Newsweek). Anticipating a new dawn of freedom after the disintegration of the Soviet Union, Russians could hardly have foreseen the reality of their future a decade later: A country impoverished and controlled at every level by organized crime. This riveting book views the 1990s reform period through the experiences of individual citizens, revealing the changes that have swept Russia and their effect on Russia's age-old ways of thinking. "With a reporter's eye for vivid detail and a novelist's ability to capture emotion, he conveys the drama of Russia's rocky road for the average victimized Russian . . . This is only half the story of what is happening in Russia these days, but it is the shattering half, and Satter renders it all the more poignant by making it so human." —Foreign Affairs "[Satter] tells engrossing tales of brazen chicanery, official greed and unbearable suffering . . . Satter manages to bring the events to life with excruciating accounts of real Russians

To Rise in Darkness offers a new perspective on a defining moment in modern Central American history. In January 1932 thousands of indigenous and ladino (non-Indian) rural laborers, provoked by electoral fraud and the repression of strikes, rose up and took control of several municipalities in central and western El Salvador. Within days the military and civilian militias retook the towns and executed thousands of people, most of whom were indigenous. This event, known as la Matanza (the massacre), has received relatively little scholarly attention. In To Rise in Darkness, Jeffrey L. Gould and Aldo A. Lauria-Santiago investigate memories of the massacre and its long-term cultural and political consequences. Gould conducted more than two hundred interviews with survivors of la Matanza and their descendants. He and Lauria-Santiago combine individual accounts with documentary sources from archives in El Salvador, Guatemala, Washington, London, and Moscow. They describe the political, economic, and cultural landscape of El Salvador during the 1920s and early 1930s, and offer a detailed narrative of the uprising and massacre. The authors challenge the prevailing idea that the Communist organizers of the uprising and the rural Indians who participated in it were two distinct groups. Gould and Lauria-Santiago demonstrate that many Communist militants were themselves rural Indians, some of whom had been union activists on the coffee plantations for several years prior to the rebellion. Moreover, by meticulously documenting local variations in class relations, ethnic identity, and political commitment, the authors show that those groups considered “Indian” in western El Salvador were far from homogeneous. The united revolutionary movement of January 1932 emerged out of significant cultural difference and conflict.

From its earliest days, the American film industry has attracted European artists. With the rise of Hitler, filmmakers of conscience in Germany and other countries, particularly those of Jewish origin, found it difficult to survive and fled for their work and their lives to the United States. Some had trouble adapting to Hollywood, but many were celebrated for their cinematic contributions, especially to the dark shadows of film noir. *Driven to Darkness* explores the influence of Jewish immigrant directors and the development of this genre. While filmmakers such as Fritz Lang, Billy Wilder, Otto Preminger, and Edward G. Ulmer have been acknowledged as crucial to the noir canon, the impact of their Jewishness on their work has remained largely unexamined until now. Through lively and original analyses of key films, Vincent Brook penetrates the darkness, shedding new light on this popular film form and the artists who helped create it.
