Rotel RB-960BX Circuit-wise, the Rotel RB-960BX is similar to the Adcom GFA-535 II. There are differences in parts values, layout, etc., but these are not two radically different designs. What is pretty radical, though, is the difference in build quality. While the Adcom is built to a standard that suggests higher-priced components, the Rotel ...

The Rotel had far more control over the sound (especially the bass) and the sound stage was very good. A year later I sold the NAD receiver and the RB980 was controlled by a Rotel RC 980. Good combination for the money (€160). In 2004 I completed the set with an as good as nes Rotel CD player RCD 991 (€450).
