Explores the origins of the Republican Party's shift from a party of moderation to one of extremism, beginning in the early 1960s with President Dwight Eisenhower's farewell address.

A New York Times Editors' Choice An "essential" (Jane Mayer) account of the dangerous marriage of plutocratic economic priorities and right-wing populist appeals — and how it threatens the pillars of American democracy. In *Let Them Eat Tweets*, best-selling political scientists Jacob S. Hacker and Paul Pierson argue that despite the rhetoric of Donald Trump, Josh Hawley, and other right-wing "populists," the Republican Party came to serve its plutocratic masters to a degree without precedent in modern global history. To maintain power while serving the 0.1 percent, the GOP has relied on increasingly incendiary racial and cultural appeals to its almost entirely white base. Calling this dangerous hybrid "plutocratic

populism,” Hacker and Pierson show how, over the last forty years, reactionary plutocrats and right-wing populists have become the two faces of a party that now actively undermines democracy to achieve its goals against the will of the majority of Americans. Based on decades of research and featuring a new epilogue about the intensification of GOP radicalism after the 2020 election, *Let Them Eat Tweets* authoritatively explains the doom loop of tax cutting and fearmongering that defines the Republican Party—and reveals how the rest of us can fight back.

In this penetrating new study, Skocpol of Harvard University, one of today's leading political scientists, and co-author Williamson go beyond the inevitable photos of protesters in tricorne hats and knee breeches to provide a nuanced portrait of the Tea Party. What they find is sometimes surprising.

A New York Times Notable Book! A New York Times Book Review Editors' Choice The story of how Newt Gingrich and his allies tainted American politics, launching an enduring era of brutal partisan warfare When Donald Trump was elected president in 2016, President Obama observed that Trump “ is not an outlier; he is a culmination, a logical conclusion of the rhetoric and tactics of the Republican Party. ” In *Burning Down the House*, historian Julian Zelizer pinpoints the moment when our country was set on a path toward an era of bitterly partisan and ruthless politics, an era that was ignited by Newt Gingrich and his allies. In 1989, Gingrich brought down Democratic Speaker of the House Jim Wright and catapulted himself into the national spotlight. Perhaps more than any other politician, Gingrich

# Download File PDF Rule And Ruin The Downfall Of Moderation Destruction R Lican Party From Eisenhower To Tea Geoffrey

Introduced the rhetoric and tactics that have shaped Congress and the Republican Party for the last three decades. Elected to Congress in 1978, Gingrich quickly became one of the most powerful figures in America not through innovative ideas or charisma, but through a calculated campaign of attacks against political opponents, casting himself as a savior in a fight of good versus evil. Taking office in the post-Watergate era, he weaponized the good government reforms newly introduced to fight corruption, wielding the rules in ways that shocked the legislators who had created them. His crusade against Democrats culminated in the plot to destroy the political career of Speaker Wright. While some of Gingrich ' s fellow Republicans were disturbed by the viciousness of his attacks, party leaders enjoyed his successes so much that they did little collectively to stand in his way. Democrats, for their part, were alarmed, but did not want to sink to his level and took no effective actions to stop him. It didn ' t seem to matter that Gingrich ' s moral conservatism was hypocritical or that his methods were brazen, his accusations of corruption permanently tarnished his opponents. This brand of warfare worked, not as a strategy for governance but as a path to power, and what Gingrich planted, his fellow Republicans reaped. He led them to their first majority in Congress in decades, and his legacy extends far beyond his tenure in office. From the Contract with America to the rise of the Tea Party and the Trump presidential campaign, his fingerprints can be seen throughout some of the most divisive episodes in contemporary American politics. *Burning Down the House* presents the alarming narrative of how Gingrich and his allies created a new normal in Washington.

The New York Times bestselling author of *The Forgotten Man* and *Coolidge* offers a stunning

Revision of our last great period of idealism, the 1960s, with burning relevance for our contemporary challenges. "Great Society is accurate history that reads like a novel, covering the high hopes and catastrophic missteps of our well-meaning leaders." —Alan Greenspan

Today, a battle rages in our country. Many Americans are attracted to socialism and economic redistribution while opponents of those ideas argue for purer capitalism. In the 1960s, Americans sought the same goals many seek now: an end to poverty, higher standards of living for the middle class, a better environment and more access to health care and education. Then, too, we debated socialism and capitalism, public sector reform versus private sector advancement. Time and again, whether under John F. Kennedy, Lyndon Johnson, or Richard Nixon, the country chose the public sector. Yet the targets of our idealism proved elusive. What 's more, Johnson 's and Nixon 's programs shackled millions of families in permanent government dependence. Ironically, Shlaes argues, the costs of entitlement commitments made a half century ago preclude the very reforms that Americans will need in coming decades. In *Great Society*, Shlaes offers a powerful companion to her legendary history of the 1930s, *The Forgotten Man*, and shows that in fact there was scant difference between two presidents we consider opposites: Johnson and Nixon. Just as technocratic military planning by "the Best and the Brightest" made failure in Vietnam inevitable, so planning by a team of the domestic best and brightest guaranteed fiasco at home. At once history and biography, *Great Society* sketches moving portraits of the characters in this transformative period, from U.S. Presidents to the visionary UAW leader Walter Reuther, the founders of Intel, and Federal Reserve chairmen William McChesney Martin and Arthur Burns. *Great Society* casts new light on other figures too, from Ronald Reagan, then governor

of California, to the socialist Michael Harrington and the protest movement leader Tom Hayden. Drawing on her classic economic expertise and deep historical knowledge, Shlaes upends the traditional narrative of the era, providing a damning indictment of the consequences of thoughtless idealism with striking relevance for today. Great Society captures a dramatic contest with lessons both dark and bright for our own time.

"From the author of Hitler: Ascent, 1889-1939--a riveting account of the dictator's final years, when he got the war he wanted but his leadership led to catastrophe for his nation, the world, and himself."--

A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author of Nixonland and The Invisible Bridge comes the dramatic conclusion of how conservatism took control of American political power. Over two decades, Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics. With the saga 's final installment, he has delivered yet another stunning literary and historical achievement. In late 1976, Ronald Reagan was dismissed as a man without a political future: defeated in his nomination bid against a sitting president of his own party, blamed for President Gerald Ford 's defeat, too old to make another run. His comeback was fueled by an extraordinary confluence: fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism; business executives uniting against regulation in an era of economic decline; a cadre of secretive " New Right " organizers deploying state-of-the-art technology, bending political norms to the breaking

# Download File PDF Rule And Ruin The Downfall Of Moderation Destruction R Lican Party From Eisenhower To Tea Geoffrey

point—and Reagan ’ s own unbending optimism, his ability to convey unshakable confidence in America as the world ’ s “ shining city on a hill. ” Meanwhile, a civil war broke out in the Democratic party. When President Jimmy Carter called Americans to a new ethic of austerity, Senator Ted Kennedy reacted with horror, challenging him for reelection. Carter ’ s Oval Office tenure was further imperiled by the Iranian hostage crisis, the Soviet invasion of Afghanistan, near-catastrophe at a Pennsylvania nuclear plant, aviation accidents, serial killers on the loose, and endless gas lines. Backed by a reenergized conservative Republican base, Reagan ran on the campaign slogan “ Make America Great Again ” —and prevailed. Reaganland is the story of how that happened, tracing conservatives ’ cutthroat strategies to gain power and explaining why they endure four decades later.

NEW YORK TIMES BESTSELLER • “ Comprehensive, enlightening, and terrifyingly timely. ” —The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump ’ s presidency has raised a question that many of us never thought we ’ d be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to

# Download File PDF Rule And Ruin The Downfall Of Moderation Destruction R Lican Party From Eisenhower To Tea Geoffrey

**Authoritarianism.** The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “ What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that. ” —The Washington Post “ Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics. ” —Ezra Klein, Vox “ If you only read one book for the rest of the year, read *How Democracies Die*. . . .This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest. ” —Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “ A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal. ” —Fareed Zakaria, CNN

'Nick Bryant is brilliant. He has a way of showing you what you've been missing from the whole story whilst never leaving you feeling stupid.' – Emily Maitlis 'Bryant is a genuine rarity, a Brit who understands America' – Washington Post In *When America Stopped Being Great*, veteran reporter and BBC New York correspondent Nick Bryant reveals how America's

## Download File PDF Rule And Ruin The Downfall Of Moderation Destruction R Lican Party From Eisenhower To Tea Geoffrey

decline paved the way for Donald Trump's rise, sowing division and leaving the country vulnerable to its greatest challenge of the modern era. Deftly sifting through almost four decades of American history, from post-Cold War optimism, through the scandal-wracked nineties and into the new millennium, Bryant unpacks the mistakes of past administrations, from Ronald Reagan's 'celebrity presidency' to Barack Obama's failure to adequately address income and racial inequality. He explains how the historical clues, unseen by many (including the media) paved the way for an outsider to take power and a country to slide towards disaster. As Bryant writes, 'rather than being an aberration, Trump's presidency marked the culmination of so much of what had been going wrong in the United States for decades – economically, racially, politically, culturally, technologically and constitutionally.' A personal elegy for an America lost, unafraid to criticise actors on both sides of the political divide, *When America Stopped Being Great* takes the long view, combining engaging storytelling with recent history to show how the country moved from the optimism of Reagan's 'Morning in America' to the darkness of Trump's 'American Carnage'. It concludes with some of the most dramatic events in recent memory, in an America torn apart by a bitterly polarised election, racial division, the national catastrophe of the coronavirus and the threat to US democracy evidenced by the storming of Capitol Hill.

As this book intriguingly explores, for those who would make Rome great again and their victims, ideas of Roman decline and renewal have had a long and violent history. The decline of Rome has been a constant source of discussion for more than 2200 years. Everyone from American journalists in the twenty-first century AD to Roman politicians at the turn of the

# Download File PDF Rule And Ruin The Downfall Of Moderation Destruction R Lican Party From Eisenhower To Tea Geoffrey

third century BC have used it as a tool to illustrate the negative consequences of changes in their world. Because Roman history is so long, it provides a buffet of ready-made stories of decline that can help develop the context around any snapshot. And Rome did, in fact, decline and, eventually, fall. An empire that once controlled all or part of more than 40 modern European, Asian, and African countries no longer exists. Roman prophets of decline were, ultimately, proven correct—a fact that makes their modern invocations all the more powerful. If it happened then, it could happen now. *The Eternal Decline and Fall of Rome* tells the stories of the people who built their political and literary careers around promises of Roman renewal as well as those of the victims they blamed for causing Rome's decline. Each chapter offers the historical context necessary to understand a moment or a series of moments in which Romans, aspiring Romans, and non--Romans used ideas of Roman decline and restoration to seize power and remake the world around them. The story begins during the Roman Republic just after 200 BC. It proceeds through the empire of Augustus and his successors, traces the Roman loss of much of western Europe in the fifth century AD, and then follows Roman history as it runs through the Eastern Roman Empire (Byzantium) until its fall in 1453. The final two chapters look at ideas of Roman decline and renewal from the fifteenth century until today. If Rome illustrates the profound danger of the rhetoric of decline, it also demonstrates the rehabilitative potential of a rhetoric that focuses on collaborative restoration, a lesson of great relevance to our world today.
