The year is 1597. For nearly a decade, the island of Britain has been under the rule of King Philip in the name of Spain. The citizenry live under an enforced curfew—and in fear of the Inquisition’s agents, who put heretics to the torch in public displays. And with Queen Elizabeth imprisoned in the Tower of London, the British have no symbol to unite them against the enemy who occupies their land. William Shakespeare has no interest in politics. His passion is writing for the theatre, where his words bring laughter and tears to a populace afraid to speak out against the tyranny of the Spanish crown. But now Shakespeare is given an opportunity to pen his greatest work—a drama that will incite the people of Britain to rise against their persecutors—and change the course of history.

From the master of alternate history comes an epic of the second Civil War. It was an epoch of glory and success, of disaster and despair. . . . 1881: A generation after the South won the Civil War, America writhed once more in the bloody throes of battle. Furious over the annexation of key Mexican territory, the United States declared total war against the Confederate States of America in 1881. But this was a new kind of war, fought on a lawless frontier where the blue and gray battled not only each other but the Apache, the outlaw, the French, and the English. As Confederate General Stonewall Jackson again demonstrated his military expertise, the North struggled to find a leader who could prove his equal. In the Second War Between the States, the times, the stakes, and the battle lines had changed--and so would history. . .

William Shakespeare is mightily out of sorts -- every scribbling wagtail cullion in London is shamelessly pilfering his ideas, and this new fellow is the cheekiest of all. New York Times bestselling author Harry Turtledove’s thought-provoking forays into the past have produced such intriguing “what-if” novels as Ruled Britannia, Days of Infamy, and Opening Atlantis. Now “the maven of alternate history” (The San Diego Union-Tribune) envisions the election of a United States President whose political power will redefine what the nation is—and what it means to be American.... President Herbert Hoover has failed America. The Great Depression that rose from the ashes of the 1929 stock market crash still casts its dark shadow over the country. Despairing and desperate, the American people hope one of the potential Democratic candidates—New York governor Franklin D. Roosevelt and California congressman Joe Steele—can get the nation on the road to recovery. But fate snatches away one hope when a mansion fire claims the life of Roosevelt, leaving the Democratic party little choice but to nominate Steele, son of a Russian immigrant laborer who identifies more with the common man than with Washington D.C.’s wealthy power brokers. Achieving a landslide victory, President Joe Steele wastes no time pushing through Congress reforms that put citizens back to work. Anyone who gets in his way is getting in the way of America, and that includes the highest in the land. Joe Steele’s critics may believe the government is gaining too much control, but they tend to find themselves in work camps if they make too much noise about it. And most people welcome strong leadership, full employment, and an absence of complaining from the newspapers—especially as Hitler and Trotsky begin the kind of posturing that seems sure to drag America into war.
